# Key Factors

- Can You Understand The Business?
- Does it possess a sustained competitive advantage or a “moat” protecting it?
- Is It Predictable?
- If you don't understand the business and it's not predictable, how can you value it?
- Once you answer these questions you narrow your field of possibilities from 5,000+ to about 200.

# Financial Analysis 101

- The numbers tell a story – what is it?
- Don't let the qualitative aspects fool you.
- Two Value Line Reports – two very different stories.
