

Med Spa

A T A C W H

The treatment was explained to me in detail. The benefits of what I can realistically expect have been fully explained to me.

Treatment:

_____ Microdermabrasion _____ Peel _____ Facial

Area to be treated: _____

The treatment is designed to exfoliate or remove the outer layers of the skin. Your participation in treatment will determine your outcome. It is important you adhere to your home care products that your esthetician has recommended.

No guarantee is expressed or implied as to the precise results, peeling times or discomfort.

During your treatment you may experience some temporary tingling or warm flushing. This will fade in a few minutes. During the next few hours you may experience some tightening of the skin, which may last several days. For most patients, flaking begins within 48 hours. It is impossible to pre-determine how much peeling will occur. The shedding process usually subsides within 5-7 days. Depending on the peel performed and your skin quality, the following reactions may occur in some patients: (1) Prolonged Redness, irritation & flakiness (2) Dryness and sensitivity (3) Severe allergic reactions in rare instances.

I hereby give my consent and authorization voluntarily and release Ascension Center for Women's Health, LLC from any claims, implied or stated that I have or may have in the future with this treatment and precautions above have been explained to me in detail and I fully understand.
