

We built our ranch style home in 1988. In 1996, we enclosed our carport, added a full bathroom, added a new carport and changed the look from ranch to colonial. Our children were very involved in school activities, church and sports. We needed the extra space so they would have room for their many friends to hang out and not be under our feet: Two (2) different builder experiences both equally stressful and both left us with structural issues. The sad truth is we had no extra money to fix the many issues that eventually caused our floors to crack and pop up. Each hard rain flooded our carport and seeped into our addition. With our children's activities, then college and lastly weddings, we spent our money on what we valued most: our children.

We only mention these so you can understand how very important it was for us to select the right builder who could fix all the damage and problems, stay within our budget and give us our dream redesign before we retired. We only had one chance to finally "get it done the right way".

How you may ask? PRAY!

We asked God to send us the right builder and slam the door shut on who we do not need to use. We interviewed five (5) different highly used and recommended companies. All left us feeling worried. So... we prayed harder..

A name we had never heard about was given to us and they were praised to best "a best kept secret" in the building industry. We called. Jimmy Truett left our home and we looked at each other and agreed

that we felt strongly that he was the one! He came back and brought his son Brandon. After spending time with them both, discussing our home issues and dreams, we knew with absolutely no hesitation that God had sent them to us.

The value they bring as a team with their combined knowledge of old school and new, the craftsmanship in their work, the professional level and honest way they conduct their business sealed the deal for us.

God showed up in a big way when He sent us Jimmy and Brandon and their crew of highly talented skilled Christian men! Brandon and Jimmy fixed all of our structural problems, and turned our dreams of a magazine worthy home into reality. We LOVE our home for the first time in 35 years. They took our ideas and wishes and FAR exceeded our expectations. And you know what? It was a joyful experience!

We highly and truthfully endorse:

B P & D Construction - Jimmy and Brandon

- Honest
- Trustworthy
- Highly Skilled
- Patient and Kind
- Great team
- Goes beyond to ensure quality and added value is brought to the job at hand
- Years of Knowledge and Experience
- Professional
- Christian men
- Dependable
- Respectful
- Reliable
- Visionaries
- Enjoys their work

Sincerely,
Greg and Tammy Ray
