

WOODLAND LAKE GAZETTE

Woodland Lake Improvement
PO BOX 202
Hernando, MS 38632

May 2020

Annual Meeting

The annual meeting on June 6, 2020 has been rescheduled for August 1, 2020 provided the governor is permitting due to Covid 19.

Entrance Signs

Glenn King has the material to replace the entrance signs. We will need help to install them on May 23, 2020. Please contact him at (901) 359-5480 if you can help.

Photo Calendar

Ally Martin is still looking for lake photos to go on a Calendar to sell for the lake. Please contact her at (901) 268-3819.

NO WAKE LAKE!! I know we have a lot on new owners, many new pontoons, and boats. **PLEASE SLOW DOWN!** The waves cause erosion to lot owners' property.

Lake Management

Chris Madden and his committee, which consist of Dave Bowen, Mike Foshee, Lance Martin, and Doug Petty, have done some great work this year improving the fishing on our lake.

They put out fertilizer on Sunday, May 3 and released crawfish on the banks Wednesday May 6. A special thanks to Joe Harp, Scott Harp, Lance Martin, John Roberts, John Anderson, Doug Petty, and Tim Cottam for helping Chris with these projects.

Chris wants to thank everyone for his or her donations to lake management.

Please be respectful of boats that are fishing.

Please put your Lot # and Annual Stickers on each side of your boats.

Glenn King is looking to buy a pontoon for a friend if anyone knows of one for sale. You can contact him at (901) 359-5480.

Please be mindful of your surroundings. I have been watching Next Door app, Lake O'The Hills Facebook page and today I got a text about strange vehicles and strangers walking up and down our roads and looking in mailboxes. If you see or have heard anything, please call 911. Stay safe and if you have cameras please make sure they are working.

There has been a lot of work on properties around the lake. Woodland Lake has always been kept neat and clean. If you or anyone you know needs help in cleaning up property, please contact anyone on the board of directors, or even your neighbors, for help.

We have numerous reports of vehicles speeding around our lake. This includes cars, trucks, and ATV's. These roads are narrow, curvy, and there are many hidden spots. Many people walk the roads around the lake for exercise and we do not want anyone to get hurt.
