Rotating Equipment Performance (REP) solutions

Predictable performance in an unpredictable world

To achieve cash efficiency, improve top-line and sustainable growth, it is vital to capture predictable and enhanced performance from your manufacturing assets. SKF's Rotating Equipment Performance (REP) model combines our engineering expertise and products with new-age digital technologies that can help you enhance and predict your assets' performance and reduce your CapEx. investments.

Improved output

Safer operations

Performance risk sharing

Reduced costs

To know more about REP visit us at www.skf.com/in or scan the QR code

Building an Atmanirbhar Bharat

SKF has a long-standing presence in India, with operations in the country since 1923. As a manufacturer of an extensive product range comprising bearings, seals, power transmission, lubrication, maintenance products, as well as remote condition monitoring and services, SKF is committed to achieving self-reliance for the domestic industry by creating a strong manufacturing ecosystem. Today, SKF in India has a significant footprint comprising of 6 manufacturing facilities, 12 offices, over 300 distributors and an employee base of over 2400 dedicated professionals.

SKF's pan India presence has made it possible to serve its customers with high-performing and sustainable products and solutions that have set industry benchmarks as well as contributed to 'Atmanirbhar Bharat Abhiyan'.

With a rich global experience of over 110 years, SKF is continuously focused on developing innovative solutions for companies across automotive and industrial sectors. Over the years, SKF has evolved from being a pioneer in self-aligning ball bearing manufacturing company to a knowledge driven

engineering company helping customers achieve sustainable and competitive business excellence.

India Distribution Center

A milestone in our continued journey towards customer centricity

- Increased stock availability
- Online tracking facility
- Faster delivery turnarounds
- Cutting-edge infrastructure
- Error-free support and service
- LEED certified logistics centre

Remote diagnostic services

Enabling world-class predictive maintenance for any industry, anywhere worldwide

Machine condition data is collected, either with an on-line system or with hand-held devices by skilled personnel – your own, a service partner or by SKF. Certified SKF analysts interpret and report on the data from Remote Diagnostic Centres using the most advanced, cloud-based technology and proprietary SKF signal analysis techniques. These subscription based services provide access to machine data and to expert SKF diagnostics from anywhere, any time.

Key benefits:

Cost savings

Avoid capital investments for hardware and software.

Global access

View reports or actual vibration data plots any time day or night from any location.

Data integrity

Automatic data uploading minimizes human error and establishes consistency and standardization throughout your organization.

Expert analysis

SKF knowledge enables us to apply 110 years of accumulated experience to diagnose collected data and make recommendations for actions.

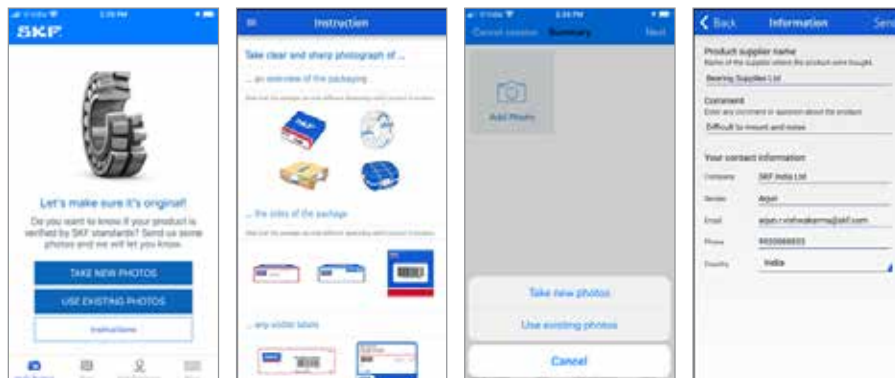

Want to authenticate your product?

Do you think that you may have accidentally bought a counterfeit SKF product?

The SKF Authenticate app includes clear instructions on how to photograph the product and automatically submit a request, all in one process. Dedicated SKF experts then review the information, authenticate the product and reply through email.

How to use authenticate application

Scan to download the SKF Authenticate app

Google Play Store

Apple App Store

The new SKF Authenticate 2.0 comes with scan code feature for scanning QR code on SKF product carton and distributor certificates.

If you have any questions, contact SKF at genuine@skf.com

SKF super-precision bearings

With high running accuracy, high-speed performance and high system rigidity, SKF super-precision bearings are ideal for machine tools and other precision applications such as rolling mills, racing cars and marine vessels. The bearings also minimize noise, vibration and heat generation.

With the widest assortment available, you get a choice of bearings to suit your specific performance need. We also offer bearing customization and global access to our application knowledge as well as service centres in 15 countries spread around the world.

Our assortment includes SKF's trademarked NitroMax steel grade (for certain designs) giving you three times longer service life than standard steel bearings. We also provide hybrid bearings with ceramic rolling elements, particularly suited for high-speed applications.
