Peak Alerts notify you of emergencies that threaten life or property and are deemed dangerous by public safety officials.

Examples of emergencies may include but are not limited to natural or man-made disasters, hazardous materials incidents, missing persons, crime, evacuation orders, and more. Peak Alerts notifications are sent through software called Everbridge by Public Safety Agencies in El Paso and Teller Counties. These notifications are sent by phone call, text, email, fax, and the Everbridge mobile app. Notices target specific areas impacted by an emergency. If you do not have internet access, call 719-785-1971.
