All of the Chihuahuas at Tiny Paws LLC are raised as family pets in our home with continuous interactions with family, friends and visitors. Tiny Paws LLC prohibits the housing of the adopted Chihuahuas out-doors and the use of the Chihuahuas in mass production/puppy mill settings.

I, as adopter, enter into this contract freely and deliberately and attest that I am agreeable to all terms of the contract. This contract covers the terms of purchase for one pet quality, companion Chihuahua with full CKC rights. All puppies are non-sterilized. The seller will provide the litter number and information to register said puppy at the adopter's expense. Adopter acknowledges there is no absolute guarantee on the adult sizes and weights.

In accordance with 225 ILCS 605/18(e) the puppy is “free of disease, injuries or abnormalities . . . (as certified) by a licensed veterinarian . . . is prima facie evidence that the licensee (seller) has taken reasonable care, as required.” Tiny Paws LLC puppies have been vaccinated and dewormed age appropriate, and with all records retained. This information is recorded in the health record provided to adopter upon receipt of the puppy; however, said puppy will be required to complete their course of vaccinations and deworming with yearly boosters to maximize protection success at Adopter’s expense. Vaccinations MUST be given to puppy by a veterinarian. *Buyer self-vaccinations will void any and/or all Health Guarantees.*

Tiny Paws LLC strives to ensure sound, healthy, loving pets are reproduced. We do not intentionally, knowing, nor purposely inter-breed dogs within the same family tree, nor breed any dogs with any known undesirable conditions. That being said, certain conditions are common for this breed (including but not limited to underbites and non-erect ears) and may not show in the parents; yet at times do appear in some puppies.
