- Secretary – Carole Savage
- AMA Safety Coordinator/Field Director – Bill Bishop
- Communications Director – Joseph “Saladbar” Salazar

THE SKY IS THE LIMIT

TEXAS HEAT WAVE!

STAY HYDRATED

When will the heat wave take a break?

Has Your Club Registered for National Model Aviation Day?

Many clubs have already done so, but there is still time to [register](#)! This is a milestone year, with it being the 10th anniversary of the event to commemorate this special day. National Model Aviation Day is a perfect opportunity to introduce local communities to model aviation and give back through fundraisers and other charity-related activities.

The U.S. House of Representatives and the U.S. Senate recently released their draft versions of the FAA Reauthorization. In these bills, AMA secured higher altitudes in uncontrolled airspace, clarified large model airplane operations, and provided additional protections for educational UAS operations. However, AMA's work isn't done.

Does Your Club Have an AED at the Flying Field?

[Automated external defibrillators](#) (AEDs), which are easy to use, can be critical when helping someone who is experiencing sudden cardiac arrest. Does your club have one? Have you explored training opportunities with the [American Red Cross](#)? There's even a [grant available](#) to help clubs purchase this device, courtesy of the AMA Foundation. AMA also partners with the Red Cross, which can provide AMA members and AMA chartered clubs with specialized offers for first aid, CPR, and AED training, as well as discounts for AED devices. Contact Mark Jones Sr. at mark.jonessr@redcross.org for more details on discounts and training.

or

<http://www.wamsrc.club> From the main page, look for the WAMS Membership Application download link

AMA Membership status, are your dues current?

REMEMBER TO GO 10 MPH ON OUR DIRT ROAD. DUST IS ANNOYING, BUT EXCESS SPEED CAUSES "WASHBOARD" AND THAT IS HARD TO FIX.

Recycle Your LiPo Batteries !!!

Bag and drop off your old, used batteries at Lowe's or Home Depot

Do Not leave Batteries at Field!

LiPo Status By Cell Voltage no load applied)

4.20V	100 %
4.09V	90 %
4.00V	80 %
3.94V	70 %
3.88V	60 %
3.84V	50 %
3.81V	40 %
3.78V	30 %
3.72V	20 %
3.60V	10 %
3.50V	MT!!
