

Trimming Tools

You need at least (these are the bare minimum tools):

- One of each
- Right hand knife**
- Left hand knife**

We recommend the Ascot model from F.Dick knives (German manufacturer), one of our instructors likes the F.Dick Master-grip for more leverage and/or larger hands.

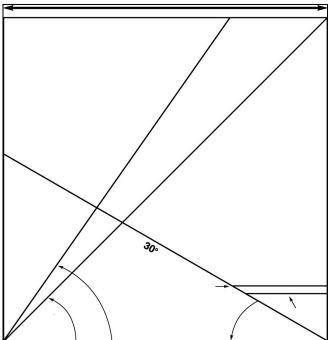

Sharpener for hoof knives

Either the F.Dick diamond coated sharpener or the Istor Swiss sharpener (or better: both)

One rasp with a rasp handle

We recommend Bellota, Heller or Save Edge rasps (very sharp)

A plexi with 45°, 55°, 30° lines and a marker for 3cm and 3.5 cm drawn on or etched in. You will find a template in this folder under "Angle Guide Template"

Trimming gloves

We prefer Atlas gloves, they are fairly inexpensive and provide a good grip

Old jeans or better an **apron** with two knife pockets
