Join other parents as they speak up and challenge [Gender Ideology](#) in the K-12 school system. And NO, you are not a bigot for having concerns – as trans-identified writer Julia Malott argues in this NP piece: “[Nope, parents are not ‘fascists’ for being skeptical of gender politics.](#)”

If you object to:

- School policies that keep secrets from parents (see [HDSBs Gender Identity Policy](#))
- Children as young as kindergarten being taught about “selecting pronouns” and “being born in the wrong body”
- Children being exposed to mature sexual content through books and external presenters who teach Gender Ideology in schools

...then it is time to find your voice and fearlessly defend your parental rights and the safety and innocence of children.

Organized peaceful protests will be happening across Canada on **Wednesday, September 20** by a diverse group of organizers. [1MillionMarch4Children](#) and [Hands Off Our Kids](#) are two of the many campaigns to raise public awareness. A summary of efforts can be found [HERE](#).

The **Parents Rights Coalition of Canada** seeks to unite all of these groups under a common message to protect children. Read their [Statement of Principles](#) and [White Paper](#) for more details.

And to learn more about the biology of sex and the implications of denying the sex binary, **The Paradox Institute** has an incredible selection of [videos](#) and [print materials](#) to keep discussions firmly rooted in physical reality, while still providing [compassionate care](#) to distressed youth.
