Mrs. Angela Theriault

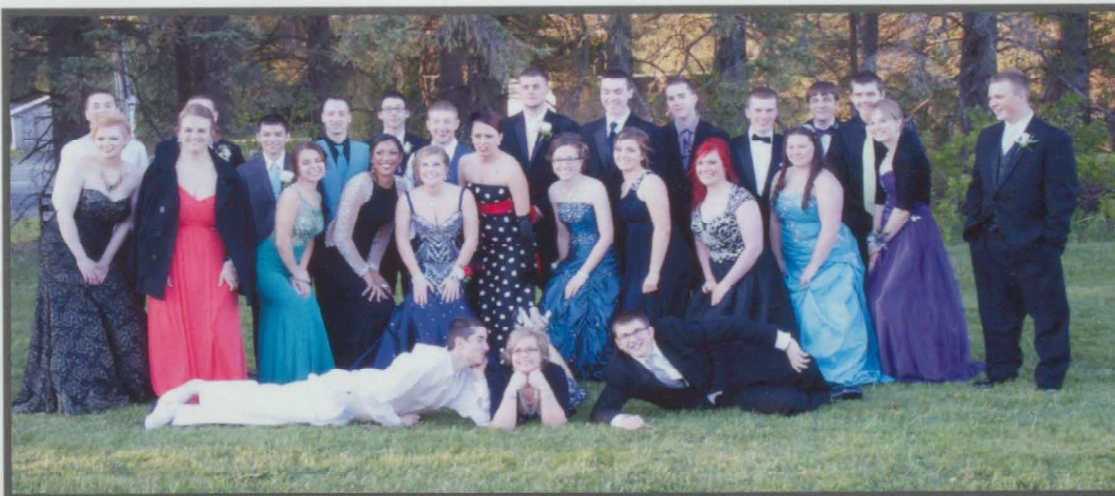

What does teaching mean to me?

"If I inspire students to be better people and make smarter life choices, then I feel as though I may have made an impact on their lives. Being a teacher means that I am there for my students with compassion and understanding while teaching them to be responsible, respectful, and educated citizens."

Mrs. Angela Theriault graduated from Fort Kent High School in 1997. She later pursued a Biology major at the University of Maine at Fort Kent, graduating in 2001. Mrs. Theriault loves spending, what little free time she has, with her two sons, Kaden and Colby, and her husband, Shawn.

Since she began teaching at Wisdom in 2013, she has also been the advisor for the Envirothon Team. In 2014, Mrs. Theriault welcomed 33 more people into her family. She took on the grueling task of being the Class of 2016's class advisor. She has made the past three years some of the most memorable for them. Together, after spending countless hours fundraising and decorating, she helped them pull off a successful prom and this year, plan Project Graduation. Although those three years have come and gone, and we will all go our separate ways, Mrs. Theriault will always have a place in each and every one of our hearts. Thank you for everything you've done for the Class of 2016 and Wisdom High School.

You will find a new set of cool students like us (maybe)... but we'll never find another cool teacher like you.
