"To the class of 2007"

We have been through elementary, middle, and now we are starting high school. We have fought, made up, and fought again, but some how we get through it and we stay together as a class. I wish all of you good luck in the up coming high school years. As long as we all stick together, high school will be enjoyable. Remember, it's going to go by too fast and soon we will be in college and will be moving on to bigger and better things. In just about fourteen years we will be back for our 10th year reunion. Look ahead and you will go far. Good luck.

**"7th Grade Story"**  
The Class of 2009 is a really great group. We all have our own talents and interests and I think that we all get along really well. A lot of us are enjoying Wisdom so far. It's been a big challenge, but I think we are adapting very well. Coming from Dr. Lesvesque Elementary School none of us were used to switching classes and having more teachers. Although some of us have had a difficult time with the transition from elementary school, the majority of us really like it here!

For many many years, Wisdom High School has been the dominant team in their division. Last year they were moved up to Class C and came back with a second place standing over new and more difficult teams. This year the bar was raised even higher when the D & C classes were merged into one to create the new C class. After many hard games and struggles, Wisdom took fifth place out of the eight teams that were competing.

The Varsity Boys considered this season to be one for rebuilding. Coming off a disappointing winless season the team was full of optimism as the veterans of the team welcomed the new comers. The Pioneers finished 1-12 which was a small improvement but still somewhat of a disappointment.
