## SMART Goals Ensure Success

### Great Goals are:

1) Stated in the **POSITIVE**. We tend to get what we focus on! Negatively stated goals make your brain picture what you DON'T want instead of the positive outcome you're looking for (try NOT thinking about an alligator biting your toe!). Plus, negatively stated goals are a painful reminder, rather than an inspiration.

#### EXAMPLES

*Eg. Use, "I have a fabulous new sales assistant" instead of, "I have to fire Peter"*

*Eg. Use, "I weigh 180lbs" instead of, "I want to lose 50lbs"*

2) Stated in the **PRESENT TENSE**. This means every time you think of this goal, you're picturing success!

#### EXAMPLES

*Eg. On 30<sup>th</sup> September I have a fabulous new sales assistant / weigh 180lbs.*

### NOW make sure your Goals are:

3) "SMART"

- **Specific** - the more specific you are the easier your goal is to achieve
- **Measurable** - so you know when you have achieved it
- **Action-oriented** - ie. you can DO something about it! Is it within your control? Ie. Winning the lottery is not a "SMART" goal
- **Realistic** - Goals need to be both challenging to inspire you AND realistic so you set yourself up for success
- **Time-Bound** - has a deadline

### Lastly, describe a day in your life, or the life of your business, once this goal is completed:

(Imagine first waking up or walking into work, describe how you feel. Now think about what you see, hear and - importantly - how you FEEL. Fully describe your day now this goal is completed. Who are you? Who is around you? Where are you? What's important to you now? What is your business like? How is your business operating differently?)

*Remember that goals are there to INSPIRE you, not to beat yourself up with.*
