# ST. GEORGE ACADEMY BULLETIN

SUMMER 2020

## *SGA Class of 2020 – In their own words...*

Due to the outbreak of Covid 19, our Saint George Academy (SGA) seniors have had to forego some incredible moments in their young lives: their remaining months of high school, their senior prom and their high school graduation. Although we are all grateful for the wonderful memories that they have shared together at SGA, the loss of such milestones is a difficult pill to swallow.

Therefore, as a small but heartfelt tribute to our seniors, we are dedicating the SGA Summer Bulletin entirely to them – the wonderful, intelligent, determined, funny, talented, kind, quirky, and brave young men and women of whom we are so proud - our own SGA Class of 2020!

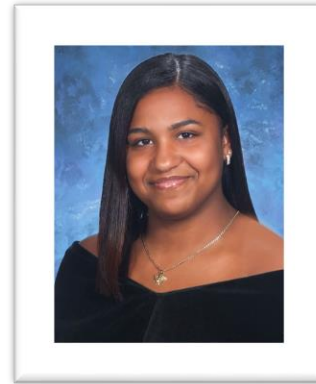

**Precious Mann**

### *Class of 2020 Valedictorian*

*I want to attend Farmingdale State College and I am undecided as to my future career goals at the moment, but I do want to travel with my best friends.*

*I'm definitely going to miss the classes and the awesome teachers I had. I can't forget the students - they're amazing & funny. At SGA*

*there's never a dull moment. One of the most important things I have learned is - be who you want to be and don't let anyone change that.*

**Alexandra Pabon**

### *Class of 2020 Salutatorian*

*I will be attending St. John's University in the fall. I am deciding between careers – owning my own real estate business or becoming a pediatric doctor. But nobody said I can't do both, right? I would also like to travel.*

*I honestly will miss the people at SGA. I will miss the small family feel, the little events, the choir classes and even gym class. I am going to miss every teacher despite the mini arguments. At the end of the day, this school shaped me to be the knowledgeable young woman I am today. I give all the credit to my school and the staff.*

*The most important thing I learned is its okay to ask "stupid questions" and that its okay to fail more than once. The fact of the matter is that you dust yourself off, pick yourself up and continue to question and move forward. My dad always told me, the person who asks the most questions is the one who moves further in life. I live by that now.*
