

REPORT ON THE CONSTRUCTION OF A WATER BOREHOLE FOR SAFE AND CLEAN WATER IN DEMBE AND FARCHA AREAS OF N'DJAMENA, CHAD

- Presented by Emmanuel Akinnuwa -

11th June, 2023

**DONATED BY
JHB - HOPE**

INTRODUCTION

This is a report for the proposal submitted to JHB Hope Foundation, USA for the Construction of Safe and Clean Water Boreholes in N'djamena – Chad for the year 2023. This report focuses on Dembe and Farcha 3 which benefited from this project. The provided boreholes were made in accordance to the description in the proposal.

DRILLING AND CONSTRUCTION PROCESS

The drilling and construction process for the boreholes were made for Dembe on the 29th of April, 2023; while Farcha was made on the 01st of May 2023. The drilling process began around 8:00am for both site on their respective dates. The drilling process lasted for about four (6) hours before it was called a day. This implies that the drilling process was not completed on this day but the next day.

On the next day, the drilling process continued and was completed before 02:00pm. After which the modelling phase and final installations were made to standard.

PRESENTAION

Below are the pictures from the project and a link to the video for the same.

QUALITY OF WATER

The quality of water from these made available boreholes are clean, odourless and safe to drink.

APPRECIATION

N'Djamena and its environs will continue to appreciate the kind gesture towards her from JHB Hope Foundation, USA. May the Lord continue to empower you as you empower this country. Amen.

Also appreciated are those who in one way or the other contributed to the realisation of the project and those who voluntarily gave a portion of their lands for the construction sites. May the Lord favour them and their families. Amen.

CONCLUSION

As the saying goes, "Water is Life", therefore providing safe drinking water to the communities in Chad is also a way of giving life. JHB has continue to be the fortress behind the realisation of this projects and we are uttermost grateful.

Thank You JHB Hope Foundation, USA. May the grace of God continue to be made available for you and yours in abundance. Amen.
