CERVE

IL VETRO È MATERIA DI LUCE.
CAPACE DI TRASFORMARSI IN
CREAZIONI DISTINTIVE.
DI VESTIRE QUALUNQUE STILE.
SOPRATTUTTO IL TUO.
PER DARE VITA ALLA
METAMORFOSI, SERVE UN SAPER
FARE SPECIALE.

Un'esperienza di oltre
mille anni nel vetro, come quella
della famiglia Bormioli.
Un mix di tecnologie in continuo
sviluppo e potenza produttiva da
leader del settore.

E, insieme al know-how, una sensibilità
altrettanto cristallina verso la qualità
e la sostenibilità ambientale.

Glass is a matter of light
being able to transform itself into distinctive
creations, to compliment any style, especially yours.
Special know-how is needed to realize this transformation.
Sector forerunners with more than a thousand years of experience in glass, such as that of
the Bormioli family, a combination of ever-evolving technology and production power.
And, along with know-how, an equally sensitive approach
to quality and environmental sustainability.

VOCAZIONE ALL'ECCELLENZA

Con una capacità produttiva da un milione e duecentomila pezzi al giorno, tre stabilimenti con trenta forni di ricottura e disponibilità interna di tutte le tecniche di decorazione, Cerve è leader mondiale nel decoro su vetro.

Il successo Cerve poggia su un'instancabile vocazione all'eccellenza: i muscoli di un grande gruppo industriale al servizio di una flessibilità artigianale, il gusto raffinato e il puntiglio per la qualità del "made in Italy", la spinta innovativa nelle tecnologie che, insofferente al limite tecnico, sposta sempre più avanti il confine del possibile. Una potenza del vetro fatta di persone proattive, accanto ai clienti, per dare materia, luce e colore a ogni idea.

WITH ITS COMMITMENT TO EXCELLENCE

With a production capacity of one million and two hundred thousand pieces per day, three factories and thirty annealing lehrs and inhouse capability for all glass decoration techniques. Cerve is a world leader in glass decoration. Cerve's success lies in its relentless pursuit of excellence: we are at the heart of a significant manufacturing group that has dynamic craftsmanship, refined taste, and unwavering commitment to the high quality synonymous with the 'made in Italy' label; with a unique innovative streak consistently pushing the boundaries of technology. A formidable leader in glassmaking, developed by proactive people, close to their customers who turn every idea into substance, colour, and light.

CRISTALLINA ANIMA GREEN

La sostenibilità ambientale è nel nostro DNA. A cominciare dalla materia prima: il vetro è infinitamente e totalmente riciclabile e riutilizzabile. Noi stessi in vetreria utilizziamo per il 40% il nostro vetro riciclato. Gli scarti del processo produttivo vengono macinati e utilizzati per abbassare la temperatura di fusione e risparmiare energia.

Con i nostri prodotti in vetro contribuiamo a liberare il pianeta e il mare dall'invasione della plastica monouso.

Da 30 anni nel food & beverage utilizziamo smalti senza metalli pesanti e impieghiamo esclusivamente vernici ad acqua, senza solventi. La nostra vocazione allo sviluppo e alla ricerca ci ha portato a **brevettare colori organici e tecniche ad alta sostenibilità**, come **OKT e OKJ**, senza rinunciare ad alti livelli di resistenza ai lavaggi e brillantezza dei prodotti.

Rispettiamo l'ambiente, evitando d'inquinare, con motori elettrici brushless a basso consumo, forni elettrici e impianti di satinatura a ciclo chiuso. Riduciamo il nostro impatto con stabilimenti illuminati a led, alimentati da pannelli fotovoltaici, raffrescati con il contributo di ampie finestrate. Architetture green, pensate per il benessere del pianeta e dei collaboratori.

CRYSTALLINE WITH A GREEN SOUL

Sustainability forms part of our DNA, beginning with our raw material: glass is wholly and completely recyclable and reusable. 40% of the glass used in our factories comes from our recycled glass. The waste from the production process is ground and reused to reduce the melting temperature to save energy. Our glass products help alleviate the impact of single-use plastics on the earth and sea life. We have been using heavy metal free glazes in the food and beverage sector for 30 years and we only use solvent free, water-based paints. Our commitment to research and development has led us to patent organic colours and high-sustainability techniques, such as OKT and OKJ without forfeiting the high-quality brilliance of the products and resistance to dishwashing. We respect the environment, avoiding pollution thanks to the low-consumption, brushless electric motors, electric lehrs and closed-cycle acidation plants. We reduce our impact with led-lit plants, powered by solar panels, cooled with the help of large windows; green architecture, designed for the well-being of the planet and staff.

Cerve da oltre 70 anni continua ad evolversi, investire e consolidare il suo brand nel mercato del tableware. Il rispetto per l'ambiente ha da sempre caratterizzato ogni passaggio del ciclo produttivo. Ora anche il packaging subirà un graduale ma totale cambiamento.

CERVE has been evolving, investing and consolidating its brand in the tableware market for over 70 years. Respect for the environment has always characterized every step of the production cycle. Now even the packaging will undergo a gradual but total change.

Il lato esterno dei nuovi cestelli e' realizzato in cartone kraft, composto per il 90% da materiale riciclato e solo per il residuo 10% da materiale vergine, certificato FSC*.

The outer part of the new sleeves is composed of kraft cardboard, consisting of 90% recycled material and 10% FSC-certified* virgin material.

La parte interna e' composta al 100% da carta riciclata.

The inner layer is made of 100% recycled paper.

*il sistema di certificazione internazionale FSC (forest stewardship council) garantisce che le materie prime utilizzate per realizzare prodotti in legno rispettano rigorosi standard ambientali, sociali ed economici.

*the FSC (forest stewardship council) certification system ensures that the raw materials used to make wood or paper products meet strict environmental, social and economic standards.

La Cerve è da sempre molto attenta all'eco sostenibilità e al design. Per il Vaso Sahara e la Walking Bottle sono stati studiati due tappi in simil legno prodotti con l'm green™ PE un polietilene non di origine fossile ma in materiale rinnovabile (Bio Based) derivato dalla lavorazione della canna di zucchero.

Cerve have always been very attentive to eco-sustainability and design. The wood-like caps of the Sahara jar and the walking bottle have been made of l'm green™ polyethylene. A renewable (bio-based) material that derives from sugarcane and not from fossil material.

dictionary

[dik-shuh-ner-ee]

noun, plural 'dictionaries'

1. a book, optical disc, mobile device, or online resource containing a selection of the words of a language, giving information about their meanings, pronunciations, etymologies, inflected forms, and derived forms, etc., expressed in either the same or another language; lexicon; glossary. 2. any of a series of dictionaries of various sizes, ranging from pocket dictionaries to multivolume encyclopedias, arranged alphabetically, as do typographical dictionaries, allowing one to look up a word.
