Greetings,

First, I would like to thank the fellowship of Narcotics Anonymous and the H&I community for your continued service and willingness to carry the message to the men in our program. It is my hope as the program director of the ARC that we can continue our relationship.

I appreciate your patience while we worked through Covid 19 and all that came with that season. We have been working diligently here at The ARC to overcome the obstacles that Covid presented. As a result of the diligent work by staff and the men in the program we do feel comfortable bringing your meeting and members back in the building. This opportunity does come with some restrictions. We still need to be practicing social distancing in the meeting room and mask must be worn by those who have not been vaccinated. As it relates to the community coming in the building, we are allowing 15 people from the community into your meeting plus the men in the program. This number is only a precaution and this decision will be revisited later.

Please feel free to contact me with any suggestions or concerns @ 216.881.2625 ext. 311303 (work) or 216.482.0229 (cell).

Thank you,

Donnell D, LCDC II
