Education:

(2018-2019) Master of Business Administration; Duke University, USA
(2006-2007) Post-Doctoral Fellowship; UNC-Chapel Hill, USA
(2004-2006) Post-Doctoral Fellowship; Toronto Rehab Institute, CDN
(2000-2004) Doctor of Philosophy; University of Toronto, CDN
(1993-1995) Master of Science; University of Western Ontario, CDN
(1989-1993) Bachelor of Science; Université d'Ottawa, CDN

Languages: English (Fluent) and French (Fluent)

Brief Biosketch:

Michel D. Landry is a Professor in the Department of Health and Functioning, Section of Global Health, at the Western Norway University of Applied Sciences (HVL) in Bergen, Norway. Prior to HVL, he was the Chair of the Department of Physical Therapy and Associate Dean for Global Health, in the College of Health Professions, at Virginia Commonwealth University (VCU) in Richmond, Virginia. From 2011 to 2021, Dr. Landry spent several years as Professor and Division Chief of the Duke Doctor of Physical Therapy Division where he successfully led an important rebuilding of the program that has now grown into one of the top physical therapy programs in the United States. Prior to completing his doctoral and post-doctoral training, he held senior clinical management positions within the private rehabilitation sector in Ontario (Canada), and leadership positions within international humanitarian aid and development agencies in conflict and disaster settings. Dr. Landry is a health policy and health services researcher, a Past-President of the Canadian Physiotherapy Association, a former Career Scientist at the Ontario Ministry of Health and Long-Term Care (MOHLTC) and has been a consultant to many global multilateral agencies including the World Health Organization. Mike lectures widely on the public policy and political dynamics of rehabilitation, and is a provocative and disruptive advocate for the moral, ethical, and economic necessity to ensure rehabilitation services across the continuum of high, middle, and low-income countries.

Academic and Professional Career

(2021-present) Professor, Virginia Commonwealth University, USA
(2014-present) Adjunct Professor, Duke Global Health Institute, Duke University, USA
(2011-2021) Professor & Division Chief, Physical Therapy Division, Duke University, USA
(2007-2011) Assistant Professor, Dept of Physical Therapy, University of Toronto, Canada

Selected Scholarship and Research Contributions (Lifetime Count)

Peer-reviewed publication: 100+; Lifetime research funding awarded: 2.5 million USD

(2019-current) Section Editor, *BMC Health Services Research*

(2016-current) Editorial Board Member: *Archives of Physical Medicine and Rehabilitation*

Primary Profession and Academic Awards

(2020) Enid Graham Award. Canadian Physiotherapy Association, Ottawa, Canada

(2015) International Service Award. World Confederation for Physical Therapy (WCPT)

(2010) Nominee, Canada's "Champion of Change," Toronto, ON, Canada

(2010) Award for Professional Contribution. Ontario Physiotherapy Association, Ottawa, ON

(2009) Exceptional Achievement Award (Professional Development). University of Toronto

Leadership Experience

Across his 30-year career, Dr. Landry has held progressive leadership positions, including academic leadership, research & education, associations, and global health organizations.

Academic Leadership: Dr. Landry is currently the Chair of the Physical Therapy Department and the Associate Dean for Global Health at Virginia Commonwealth University (VCU). Prior to arriving at VCU, he spent a decade as Division Chief of the Duke Doctor of Physical Therapy (DPT) Division where he led an important rebuilding of the program. Since arriving in 2011, the DPT has repositioning its academic home, increasing its US News and Reports national rankings of physical therapy educational programs from #26 to #10, developed a large divisional federally funded research agenda, achieved the highest level of educational accreditation for the program. Dr. Landry has led several academic strategic planning processes and has been a member of number of editorial boards top peer-reviewed journals in his field.

Research & Education: Translation of rehabilitation health services research into practice and policy is a fundamental principal that drives Dr. Landry's research agenda. From the time Dr. Landry was initially funded by the Ontario Ministry of Health (equivalent to an NIH K-Award), most of his funded research and publications surround understanding rehabilitation supply and demand and developing health systems strengthening approaches to bridge the gap. His teaching and educational innovations have focused has been on global health, health system strengthening and rehabilitation health service and policy.

Professional Associations: Dr. Landry first became involved as a student representative to the Canadian Physiotherapy Association (CPA) in the 1990s. His CPA journey led to his appointment CPA President (2007-2009), where he implemented strategies to substantially grow membership, optimize financial stability through non-dues revenue generating activities, legislation around advances in scope of practice and specialization, and sophisticated national advocacy and lobbying strategies. He has remained a consultant to many PT organizations.

Global Health Organizations: Dr. Landry has been a rehabilitation leader in humanitarian aid organizations around the world for 25 years. For instance, following the 2015 earthquake in Nepal, he worked as policy consultant to the World Health Organization (WHO) field office in Kathmandu, and between 2016-2017, he consulted with the WHO in Geneva on guidelines development and minimal technical standards for rehabilitation interventions in disasters setting and in austere environments. He is guest editor for a special collection in BMC Health Services Research, titled Health services and systems in fragile and conflict-affected regions.

Michel D. Landry
Full Academic CV
Date Prepared: May 2023

Full Name: Michel Daniel Landry

Present Academic Rank and Title: Professor

Primary Department: Department for Health and Functioning, HVL, Norway

Secondary Department: Duke Global Health Institute, Duke University

Place of Birth: Pembroke, Ontario, Canada

Education:

Institution	Date	Degree
The Fuqua School of Business Duke University, Durham, NC, USA	2018-2020	Master of Business Administration (MBA), and Certificate in Health Services Management (HSM) (Hybrid Weekend Executive Format)
Gillings School of Global Public Health University of North Carolina at Chapel Hill, Chapel Hill, North Carolina, USA	2006-2007	Post-Doctoral Fellowship (Health Human Resources)
Toronto Rehabilitation Institute Toronto, Ontario, Canada	2004-2006	Post-Doctoral Fellowship (Health Services Research)
University of Toronto Toronto, Ontario, Canada	2000-2004	Doctor of Philosophy (Health Policy & Administration)
University of Western Ontario London, Ontario, Canada	1993-1995	Master of Science (Physical Therapy)
Université d'Ottawa Ottawa, Ontario, Canada	1989-1993	Bachelor of Science (Physiotherapy)
École Secondaire Jeanne-Lajoie Pembroke, Ontario, Canada	1983-1989	High School Diploma

Professional and Academic Career:

Academic Institution	Position/Title	Date
Western Norway University of Applied Sciences Bergen, Norway	Professor	2021-
Virginia Commonwealth University, Richmond, VA	Chair & Associate Dean	2021-2023

16. **Landry MD**, *Forum on Physical Therapy Funding*, Ontario Physiotherapy Association Congress 2004, Toronto, Ontario, April 3, 2004.
17. **Landry MD**, *Understanding Funding, Delivery and Allocation of Physical Therapy Services in Alberta*, Joint Congress of the Alberta Physiotherapy Association and the College of Physical Therapists of Alberta, Edmonton, Alberta, May 1, 2004.
18. **Landry MD**, *The Canadian Health Care System and Rehabilitation Services*, Community Based Rehabilitation Study Tour to Canada, Japanese Association of Rehabilitation Medicine, Sponsored by the International Centre for the Advancement of Community Based Rehabilitation (ICACBR), Queen's University, Kingston, Ontario, May 10, 2004.
19. **Landry MD**, *Physical Therapy on Trial in Ontario: Implications of the Government of Ontario's Decision to Delist Publicly Funded Community Based Services Delivered through Schedule 5 clinics*, Toronto East General Hospital, July 8th, 2004.
20. **Landry MD**, Raman S. *An Introduction to International Health: The Role of Physical Therapy*. Department of Physiotherapy. McMaster University, January 14, 2005.
21. Raman S, **Landry MD**. *Health and Disability in Post-Conflict Settings*. International Development Week - Studies in National and International Development (SNID). Queen's University, February 3rd, 2005.
22. **Landry MD**, *Shifting Health Care Dynamics: How will Physical Therapy Services be Funded in the Future?* Hamilton District Ontario Physiotherapy Association, February 22, 2005.
23. **Landry MD**. *Be It Resolved that Rehab Should be Client Driven*. Greater Toronto Area (GTA) Rehab Network – Best Practices Day. February 23, 2005.
24. **Landry MD**. *Cost Shifting and Containment in Ontario's Rehabilitation Sector*. Physiotherapy Professional Development Day. Westpark Health Centre. March 11, 2005.
25. **Landry MD**, *Monopsony: Riding the Public/Private Divide*. McMaster University, Michael G. DeGroote School of Business, March 21st, 2005.
26. **Landry MD**, *The Public/Private Divide: Emerging Trends in Financing and Delivery of Physical Therapy Services*. New Brunswick Physiotherapy Association, Moncton NB, April 22, 2005.
27. **Landry MD**, *Positioning Physical Therapy on the Global Stage*. New Brunswick Physiotherapy Association, Moncton NB, Canada. April 22, 2005.
28. **Landry MD**, *Patellar Femoral Syndrome: A Research Update*. Office of Physical Therapy Affairs, Kuwait Ministry of Health, Kuwait City, Kuwait, June 20th, 2005.
29. **Landry MD**, *Dimensions of International Rehabilitation*. Faculty of Health Sciences, McMaster University, Canada. July 11, 2005.

30. **Landry MD**, *Niche Markets in Health Care*. Schulich School of Business, York University, Canada. October 19, 2005.
31. Raman S, **Landry MD**, *Global Governance and Disability in Post Conflict Environments*, Studies in National and International Development (SNID), Queens University, Canada. October 26, 2005.
32. Raman S, **Landry MD**, *Physiotherapy: A Vision for the Future*. Ontario Hospital Association Convention, Toronto, Ontario, Canada. Oct 31, 2005.
33. **Landry MD**, *Global Perspectives on Disability*. Trillium Health Centre Professional Practice Week 2006. Keynote Address. Mississauga, Ontario, Canada. January 25, 2006.
34. **Landry MD**, Raman SR. *Global vs International Health and the Role of the Physical Therapist*. Department of Physical Therapy, McMaster University, Hamilton, Ontario, Canada. February 6th, 2006.
35. **Landry MD**, Balogh R. *International Health and Disability*. Annual General Meeting of the Westgate District OPA. Brampton, Ontario, Canada. March 1st, 2006.
36. **Landry MD**. *Primary Care: A Rough Road Ahead*. Department of Physical Therapy. Queens University, Kingston, Ontario, Canada. March 2nd, 2006.
37. **Landry MD**, Cott C. *The Canadian Health Care System: The View from Up Here*. Rehabilitation Institute of Chicago. Chicago, Illinois, USA. May 11th, 2006.
38. **Landry MD**. *Supply and Demand for Rehabilitation Services*. Professional Practice Day. Providence HealthCare, Toronto, Ontario, Canada. May 31st, 2006.
39. **Landry MD**. *The Impact of Delisting Rehabilitation Services on Persons with Chronic Conditions*. Institute on Aging (IOA), University of North Carolina at Chapel Hill, Chapel Hill, North Carolina, USA. September 13, 2006.
40. **Landry MD**. *The Changing Role of Canadian Hospitals: Where do Rehabilitation Services Fit?* Matsqui Sumas Abbotsford (MSA) Hospital. Abbotsford, British Columbia, Canada. November 23rd, 2006.
41. **Landry MD**. *Surrey Capacity Initiative (SCI)*. Surrey Memorial Hospital. Surrey, British Columbia, Canada. November 27th, 2006.
42. **Landry MD**. *Conducting Clinical and Health Services Research: A Primer for the Busy Clinician*. Al-Razi Hospital, Kuwait City, Kuwait. April 10, 2007.
43. **Landry MD**. *Influencing Policy Change through Inter-Professional Connections*. The Ottawa Hospital. Ottawa, Ontario, Canada. May 14th, 2007.
44. **Landry MD**. *Disability and Global Health: What Will, Can, and Should We Do?* Sunnybrook Health Science Centre. September 25, 2007.
45. **Landry MD**. *Myths and Realities of the US Health Care System: Lessons Learned*. Rehab Rounds, Rehabilitation Sector, University of Toronto, Canada. September 26, 2007.
46. **Landry MD**. *Poverty, Disability and Human Development: A Global Challenge*. Global Health Foundation Course for Young Professionals. Peter A. Silverman Centre for International Health. Mount Sinai Hospital, Toronto, Ontario, Canada, April 2, 2008.
47. **Landry MD**. *Whiplash Associated Disorders: Applying the Evidence in Clinical Rehabilitation Practice*. 2nd Annual Spine Conference, Kuwait City, Kuwait. April 10, 2008.
48. **Landry MD**. *Health Human Resource in Rehabilitation: International Comparisons*. American Physical Therapy Association, San Antonio, Texas, USA. June 12, 2008.

49. **Landry MD.** *Poverty, Disability and Human Development: A Global Pediatric Challenge.* Bloorview Kids Rehab, Toronto, Ontario, Canada. June 25, 2008.
50. **Landry MD.** *Shifting Sands: Physiotherapy Practice Day.* Providence Healthcare, Toronto, Ontario, Canada. Sept 11th, 2008.
51. **Landry MD.** *The Relationship between Supply and Demand: Episodic Disability in Ontario.* Canadian Working Group on HIV and Rehabilitation (CWGHR). Episodic Disability Network (EDN) Meeting. Toronto, Ontario, Canada. Oct 1, 2008.
52. **Landry MD.** *Career Scientist Dialogue Session.* Ministry of Health and Long Term Care, Toronto, Ontario, Canada. December 9, 2008.
53. **Landry MD.** *Health Human Resources in Rehabilitation: The Past, The Present, and The Future.* Leaders in Rehabilitation Conference: Edmonton, Alberta, Canada. March 19, 2009 (Keynote Address).
54. **Landry MD.** *Meeting the Global Health Challenge: The Role of Rehabilitation.* Research for the Future: Moving Physical Therapy Forward: Knowledge Sharing Day 2009. Saskatoon, Saskatchewan, Canada. October 3, 2009 (Keynote Address).
55. **Landry MD.** *Influencing Policy: Challenges and Opportunities.* International Policy Summit on Direct Access and Advanced Scope of Practice in Physical Therapy. Washington DC, USA. October 22, 2009.
56. **Landry MD.** *Relative Attractiveness of Employment Setting for Physiotherapists in Canada: Implications for International Recruitment of Health Professionals.* World Health Organization, Geneva, Switzerland. Nov 25, 2009.
57. **Landry MD.** *Forecasting Demand, and Modeling Supply for Rehabilitation Providers.* St. James's Hospital, Trinity College Dublin, Ireland, Nov 30, 2009.
58. **Landry MD, Levy C.** *Outpatient Rehab: Where and How Do We Go From Here?* Greater Toronto Area Rehab Network. Best Practices Day 2010: Inquiry, Innovation and Integration. Toronto, Ontario, Canada. March 1, 2010.
59. **Landry MD.** *Breaking Barriers, Advancing Access: Collaborating to Enhance Rehabilitation for People Living with HIV and Other Episodic Disabilities.* The Canadian Working Group on HIV and Rehabilitation (CWGHR) will host its Forum and Annual General Meeting June 12-13, 2010 in Toronto, Canada. (Keynote Address).
60. **Landry MD.** *Panel Discussion: After the Immediate Shock: Long Term Rebuilding in Haiti.* University of Toronto Internal Health Program (ITIHP) and Centre for International Health (CIH). March 31st, 2010.
61. **Landry MD, Aiken A, Moore J.** *Direct Access and Advanced Scope of Practice: Lessons from the International Summit for Physical Therapist Practice.* American Physical Therapy Association (APTA) Congress. Boston, MA, USA. June 17, 2010.
62. **Landry MD, Moore J, Ward S.** *Physical Therapy in Canada and the United States: A Panel Discussion.* Canadian Physiotherapy Association Congress. St. John's, Newfoundland & Labrador, Canada. July 23, 2010.
63. **Landry MD.** *Employment setting preferences for Internationally Educated Rehabilitation Providers in Ontario, Canada: Do They Only Work Where Canadian-Trained Don't Want To? Fireside Chat.* CHNET-WORKS! National on-line presentation, sponsored by the population health Improvement research Network (University of Ottawa). Feb 23rd, 2011.

64. **Landry MD.** *Global Health and Physical Therapy.* Human River Regional Hospital. Toronto, Ontario, Canada. May 5th, 2011.
65. **Landry MD.** *Rehabilitation's Role in International Health: Experiences and Lessons Learned in Haiti.* AlbertaREHAB, Edmonton, Alberta, Canada, Nov 4, 2011.
66. **Landry MD.** Economic Club of Canada. Toronto, Ontario, Canada. February 28, 2012
67. **Landry MD.** University of Manitoba, Department of Physical Therapy. Invited as a Visiting Professor to present a 2-day conference on health policy, health economics, and global health. Winnipeg, Manitoba, Canada, March 8-9, 2012.
68. **Landry MD.** *Revisiting the Humanitarian Paradox: Seeking a Balance between the Moral Imperative to Act, with the Moral Hazards of Acting.* Triangle Global Health Consortium. Research Triangle Park, Raleigh, North Carolina, USA. April 26, 2012
69. **Landry MD.** *Workforce, Recruitment and Retention.* American Physical Therapy Association Annual Conference. Tampa, Florida, USA. June 8th, 2012.
70. **Landry MD.** *Forecasting Health Human Resource in Rehabilitation: A Rough (and necessary) Methodological Road Ahead.* University of North Carolina at Chapel Hill. Course: HPM873: Research Seminar in Health Policy and Management. Chapel Hill, NC, USA. September 25, 2012.
71. **Landry MD.** *Paradoxical Dimensions of Global Health: Seeking a Balance between the Moral Imperative to Act, with the Moral Hazards of Acting.* Invited as a Visiting Scholar at Northeastern University, Chicago, Illinois, USA. September 27-28, 2012.
72. **Landry MD.** Health Policy & Health System. Invited as a keynote speaker in the physiotherapy program by Trinity College Dublin/Nanyang Polytechnic University. Singapore. February 25 & 26, 2013
73. **Landry MD.** Ted-like Talk. Canadian Physiotherapy Association Congress 2013. Montreal, Quebec, Canada. May 27, 2013
74. **Landry MD.** Hot Topic Debate; "Be it resolved that physiotherapy can be a hands-off profession." Canadian Physiotherapy Association Congress 2013. Montreal, Quebec, May 27, 2013.
75. **Landry MD.** CBR Transfer of Knowledge. Queen's University Summer School Initiative, Herstmonceux Castle, East Sussex, UK, June 12, 2013.
76. **Landry MD.** *Community Based Participatory Research (CBPR): How to Generate CBR Evidence?* Queen's University Summer School Initiative, Herstmonceux Castle, East Sussex, UK, June 12, 2013.
77. **Landry MD.** *Road Traffic Accidents and Attitudes towards Seat Belt Use in Kuwait.* DGHI Global Injury Research Collaboration Meeting, Duke University, Durham, North Carolina, USA. Feb 24, 2014.
78. **Landry MD (Keynote).** *Implementation Challenges of the Doctor of Physical Therapy Program: The North American Experience* Challenges of Doctor of Physical Therapy (DPT): From Roots to the Next era. University Antoninin, Beirut, Lebanon, March 1, 2014.
79. **Landry MD (Invited Talk).** *What Past is Prologue:* Rehabilitation Service, Research and Education at the Forefront of Sustainable Global Engagement. School of Rehabilitation Therapy. Queen's University, Kingston, Ontario, Canada. March 12, 2014.

80. **Landry MD** (Invited Talk). *The Evolving Contributions of Physical Therapists on the World's Stage: Connecting with Communities at the Local, National and International Levels*. Carolee Moncur Lectureship in the Department of Physical Therapy, The University of Utah, Salt Lake City, Utah, USA. March 17, 2014.
81. **Landry MD**. The Walk Again Project™: Development of a Neuroprosthesis that Makes the Impossible Possible for People with Spinal Cord Injuries. 13th Annual Asian Spinal Cord Network (ASCoN) Conference, Savar, Bangladesh. Dec 1, 2014.
82. Gwyer J, Covington K, **Landry MD**, Feld JA, Pastva A, Taylor A. Team-Based Learning as the signature pedagogy in a DPT Curriculum. Combined Sections Meeting of the American Physical Therapy Association (APTA). Indianapolis, Indiana, USA. Feb 4-7, 2015.
83. Howard L, Tjore G, **Landry MD**, Wallis de Vries R. ERASMUS +: Opportunities and Challenges. North American Association of International Educators (NAFSA), Denver, Colorado, June 1, 2016
84. **Landry MD**. Rehabilitation in Austere Environments: effective leveraging of human and financial resources. 5th Singapore Rehabilitation Conference. September 7-8, 2017, Singapore.
85. **Landry MD**. Emerging infectious disease and rehabilitation: A case study of the ZIKA and EBOLA virus. 5th Singapore Rehabilitation Conference. September 7-8, 2017, Singapore.
86. **Landry MD**. Enseigner et apprendre: application en education clinique. SUDA project conference (keynote). Dakar, Senegal. Oct 3, 2017.
87. **Landry MD**. Rehabilitation in Response to Sudden-Onset Disasters (Keynote). 4th International Congress of Physiotherapy" Mexico City, Mexico. Oct 7, 2017
88. **Landry MD**. Planning a rehab response to the earthquake for physiotherapists. Developing a plan for the future. 4th International Congress of Physiotherapy" Mexico City, Mexico. Oct 7, 2017
89. **Landry MD**. Forecasting the global population of disabilities (PWD): 2018-2030. 3rd World Disability and Rehabilitation Conference (WDRC). Kuala Lumpur, Malaysia, Nov 13, 2018

99. **Landry MD**. Financing global health research. ADAPT Chartered Society of Physiotherapy. ADAPT International Conference (Virtual). Nov 26, 2021

Consultant appointments (last 5 years):

- 2011-2015 **Committee Member**, CIHR Masters Selection Committee, University of Toronto, Toronto, Ontario, Canada.
- 2011-2017 **Committee Member**, CIHR Health Research Training A-PhD, Ottawa, Ont., CDN
- 2017-present **Chair**, SPOR/PIHCI Network (Pan-Canadian SPOR Network in Primary & Integrated Health Care Innovation). Canadian Institute of Health Information
- 2019-present **Committee Member**. Health Policy & Systems Management (HPM) Committee, Canadian Institute of Health Information (annual research reviews)

Professional awards and special recognitions:

- 2004 **International Health Award**, Canadian Physiotherapy Association, Québec City, Québec, Canada.
- 2004 **Rising Star – Teaching Award**, Department of Physical Therapy University of Toronto, Toronto, Ontario, Canada.
- 2006 **Recognition and Teaching Award**, Department of Physical Therapy University of Toronto, Toronto, Ontario, Canada.
- 2006 **Audrey Trudeau Memorial Award**, Canadian Physiotherapy Association–Congress 2006, Saint John, New Brunswick, Canada.
- 2007 **Aging Exchange Award** – Best Post-Doctoral Poster, Institute on Aging University of North Carolina at Chapel Hill, Chapel Hill, North Carolina.
- 2008 **Literary Award** – Society of Graduates, Department of Health Policy, Management and Evaluation, University of Toronto, Toronto, Ontario, Canada.
- 2009 **Exceptional Achievement Award (Professional Development)** Department of Physical Therapy, University of Toronto, Toronto, Ontario, Canada.
- 2010 **Nominee, Canada’s “Champion of Change” competition**, Sponsored by CBC News, Outpost Magazine and Manulife Financial Toronto, Ontario, Canada.
- 2010 **Special Award for Professional Contribution – External** Ontario Physiotherapy Association, Toronto, Ontario, Canada.
- 2015 **International Service Award**. World Confederation of Physical Therapists (WCPT) Awarded at WCPT Congress in Singapore.
- 2020 **Enid Graham Award**
Canadian Physiotherapy Association, Ottawa, Ontario, Canada

Organizations and Participation:

- 2000-2002 *Journal of Critical Care*, W. B. Saunders Publishing Inc., Toronto, Ontario, Canada and Philadelphia, Pennsylvania, **Managing Editor**

2001-2002 College of Physiotherapists of Ontario, Toronto, Ontario, Canada Fitness to Practice, **Member**

2003-present *Physiotherapy Canada*, Toronto, Ontario, Canada, **Peer Reviewer**

2002-2004 Ontario Physiotherapy Association, Toronto, Ontario, Canada
Member, Board of Directors

2003-2006 Canadian Physiotherapy Association, Toronto, Ontario, Canada
Executive Committee International Health Division, **Chair (Founding)**

2005 Central Toronto District-Ontario Physiotherapy Association, Toronto, Ontario, Canada, **Voting Delegate**

2005-2011 Fawzia Sultan Rehabilitation Institute (FSRI), Kuwait City, Kuwait, **Vice President of Research and Education**

2005-2006 Canadian Physiotherapy Association, Toronto, Ontario, Canada
World Confederation of Physical Therapy Delegate Funding Task Force, **Chair**

2006-2008 Canadian Physiotherapy Association, Toronto, Ontario, Canada, **President-Elect**

2006-2007 University of North Carolina at Chapel Hill, Chapel Hill, North Carolina
Faculty Health and Wellness Committee, Department of Health Policy and Administration, **Member**

2007-2009 Canadian Physiotherapy Association, Toronto, Ontario, Canada
President

2007-2010 *Physical Therapy*, Alexandria, Virginia, **Editor**

2007-Present *Disability and Rehabilitation*, Ipswich, UK, **Peer Reviewer**

2007-Present *Health Policy*, Leuven, Belgium, **Peer Reviewer**

2007 Canadian Institutes for Health Information, Ottawa, Ontario, Canada, Seed Grant: Globalization, Gender and Health, **Reviewer**

2009-2010 Canadian Physiotherapy Association, Toronto, Ontario, Canada
Past-President

2008-2011 Ontario Graduate Scholarship (OGS) Review Panel, Ministry of Training, Colleges and Universities, Thunder Bay, Ontario, **Member**

2008-2011 Toronto Addis Ababa Academic Collaboration, **Rehabilitation Representative**

2009 Ontario Council on Graduate Studies (OCGS) appraisals of the MSc Program in Health Management, McMaster University, **Reviewer**

2010 Toronto Rehabilitation Institute (TRI), Toronto, Canada, Emergency Response in Haiti, **Project Lead**

2007-2015 *World Health and Population (WHP)*, **Associate Editor**

2011-2018 *Physical Therapy*, Alexandria, Virginia, **Editorial Board Member**

2012-2013 *Physical Therapy International*, London, UK, **Scientific Editor**

2013-2015 *Physiotherapy Research International*, London, UK, **Editor**

2016-2020 WHO South Asia Journal of Public Health, **Editorial Board Member**

2017-present *Archives of Physical Medicine and Rehabilitation*, **Editorial Board Member**

2019-present BMC Health Services Research, **Section Editor**

Areas of research interests (basic and applied):

Global Health

Health Policy and Health Services Research

Health Human Resources

Supply/Demand Rehabilitation and Physical Therapy

TEACHING & EDUCATION**McMaster University, Department of Physical Therapy, Hamilton, Ontario, Canada**

1993-1996 Tutor, I participated as a small group tutorial within a problem-based learning (PLB) curriculum within the Physical Therapy program. This was my first academic teaching appointment.

Queens University, Department of Rehabilitation Sciences, Kingston, Ontario, Canada

1996-2000 Educator, International Centre for the Advancement of Community based Rehabilitation (ICACBR). While working as a Project Manager working primarily in the global community, I was also appointed as an educator and taught 1 course per year.

University of Toronto, Department of Physical Therapy, Toronto, Ontario, Canada

2000-2003 Teaching Assistant, Electrotherapeutic Modalities. Taught a total of 20 hours of content and managed the practical laboratory aspects of the course.

2003-2011 Theme Leader, Business and Practice Management. Created, developed an implement a cross cutting theme that focused on building capacity around business and policy among physiotherapy students. The Business and Practice Management theme was a 50 hours of direct contact educational theme.

Duke University, School of Medicine, Durham, North Carolina, USA

2011-2017 Course Coordinator, Health Policy and Practice (PT712). I implemented a 4-week course in physical therapy in a team-based learning (TBL) format. The course was taught annually in the second year of the program, and the assessment strategy was based on a class debate and a grand challenge where the student worked in teams to develop an innovative approach to solving a policy challenge.

2015-2018 Course Coordinator, "Policy and Global Health Week" in the MD program. I coordinated an annual week (35 hours of content) within the MD curriculum that focused on blending concepts of global health and policy.

2016-2018 Course Coordinator, Health Policy for Internationally Education Physical Therapists. I applied and was granted the contract from the FSBPT to develop and implement a 2-credit online course that would help meet the educational requirement for licensure that many internationally educated physical therapists lack when they arrive. In this 10-week fully online course, internationally educated physical therapists would engage with material, take weekly quizzes and complete an end of course critical reflection on the profession.

2018-2021 Educator, Physiotherapy and Refugee Education Project (PREP). As part of the ERASMUS+ funded project, I co-developed the conceptual framework and developed content for 2 modules for 10-week Mass Open Online Course (MOOC).

Western Norway University of Applied Sciences (HVL's), Bergen, Norway

2018-present, Adjunct Professor. Masters of Healthy Aging and Rehabilitation (MARE). In this capacity, I helped to develop the curriculum for HVL's first fully online Master of Science degree in healthy aging and rehabilitation. I currently teach MARE520, introduction to rehabilitation and public health, and well as coordinate the final year thesis projects.

AWARDED GRANTS

CURRENT

2021-2024 European Region Action for the Mobility of University Students (ERASMUS+)

Persons with refugee experience – Interprofessional Care

Principal Investigator: Dr. Djenana Jalovcic. Co-Investigators: Dr. Maria Nordheim, Dr. Emer McGowan, Dr. Joost van Wijchen, Egil Kaberuke-Nielsen, Dr. Rolf Vardal, and **Dr. Mike Landry**

 Toronto, Ontario, Canada. Project Title: The effect of high and low frequency electroacupuncture on skin temperature. Principal Investigators (PI): Landry MD, Scudds, R.

% Effort	90
Amount	\$100 CDN (equipment)
Duration	December 1994-January 1995

Narratives: Global Health Experience

I have been fortunate to contribute in many capacities across a variety of settings since beginning my global health career in 1996. Most of my clinical, educational or research experiences are based in complex sudden-onset disasters/emergencies and conflict/post conflict emergency settings. Below, I briefly highlight five of these engagements that were particularly impactful based on key performance indicators. Many of these experiences have been documented in my list of peer-reviewed publications.

2016-2018: Mali, Niger and Senegal

I was selected to be a mentor on a 2-year USAid-funded project called the “Strengthen the physiotherapy associations, Use the standards set by World Physiotherapy, Develop a paper on physiotherapy assistants’ role, and Augment wheelchair training” or the (SUDA) project. Specifically, I was primarily a mentor for colleagues based in Mali where their goal was to scale up a fledgling professional association and improve their educational training program for physical therapists. At the completion of the project, the “Association des Kinesitherapeutes du Mali” was officially formed and was invited for membership in the world governing body called World Physiotherapy. On the other hand, the scaling for the training/education struggled to advance in unexpected ways. In global health management, research or practice, advancements or development is not always linear, and in the case of the SUDA project, our collective project team needed to re-evaluate the barriers. Ultimately, the educational outcomes were achieved, but not in the originally expected ways as we introduced digital health and education as a foundation.

2015-2017: Earthquake in Nepal, and WHO Headquarters

After the sudden-onset disasters in the Kathmandu Valley, I was invited by the World Health Organization (WHO) field office in Kathmandu for a 5-month rehabilitation/disability policy consultant. I travelled and lived in Kathmandu a few months after the earthquake and worked directly with the Ministry of Education and the Ministry of Health in Nepal to develop a comprehensive post-earthquake recovery plan that would place person with disability at the forefront of their build back better initiatives. In addition, I was also tasked with coordinating the disability-related NGO community who were on the ground to maximize outcomes and outputs in the immediate recovery phases. At the same time, I was also asked by the WHO headquarters in Geneva to also facilitate the development of the sub-documents within the “Minimal Technical Standards in Emergencies”.

2010: Earthquake in Haiti

While I was a post-doctoral fellow at the Toronto Rehabilitation Institute (TRI), a massive earthquake occurred in Haiti in early 2010. The CEO of TRI asked me to conduct a rapid needs assessment of how to most effectively use the \$250,000.00 targeted donations that they received to mount an emergency response. I used my contacts in Haiti to first conduct a rapid needs assessment, develop an intervention plan, seek approval from TRI leadership and local partners, and then build a team of experts. The coordination of the response in Haiti was mostly chaotic due to the extensive damage, as a result I proposed to support a pre-existing NGO that has accepted 18 people who sustained spinal cord injuries from the event. The proposal was accepted by all parties, and I lead a multidisciplinary team of rehabilitation experts for 6-months in the northern part of the country.

2002-2009: Fawzia Sultan Healthcare Network - Kuwait

A Kuwaiti orthopedic surgeon colleague invited me to build a business plan to establish a non-profit rehabilitation-oriented clinic in Kuwait City. Over the period of 2002-2009, I worked with partners and funders based in the middle east to build what is now the Fawzia Sultan Healthcare Network (FSHN). While on the one hand, this may not appear to be tradition global health work, but on the other, health disparities in the Gulf are rather striking when comparing Kuwaiti national citizens, compared to other populations. Orienting the FSHN towards providing care for people excluded by the state-funded rehabilitation care was a significant goal and challenge. In the end, we implemented measures to ensure that all would receive care irrespective of their ability to pay, and FSHN remains a unique community-based experiment that has sustained the last 20 years.

1996-2000 Bosnia & Herzegovina, Kosova, and Guatemala

During the 4-year period between 1996-2000, I was the Project Manager for a War Victims Rehabilitation Project (WVRP) that was being implemented by the International Center for the Advancement of Community Based Rehabilitation at Queens University in Kingston, Canada. There were three primary locations of this federally-funded project and I divided my time between part of the Former Yugoslavia and Guatemala. The primary goal of the project was direct care delivery, and health systems strengthen through workforce development. At the end of project, I decided to begin my PhD studies.
