Well, Melissa is (a) an expert and (b) a professional. So, whatever you might think you from and an expert/professional, well, that is what you get. The ambiance is GREAT. Her studio is set up just great. Once you get to the ambiance part you get to the expert/professional part of the program!! Always good!

I came in after falling down my stairs thinking she wouldn't be able to work on my lower back as I'd bruised my tailbone quite badly. Not only was Melissa able to help with what I originally was coming in for she was even able to help with the pain from my fall to the point that I stopped taking pain meds! Everytime I walk out after my appointment my only regret is not having gone sooner, she's the best in the business!

Melissa is great - I left my massage feeling so relaxed and well cared for. She got rid of lots of the tension I had from sitting and typing all day, as well as a knot in my lower back that had been causing me pain for a while. She's very knowledgeable and provided advice as to how I can better care for my muscles and ease tension at home. Will book again!

I really liked that Melissa worked on my trouble areas. My massage was yesterday and today I feel better than I have in a long time. For a little girl she's got a lot of strength in her hands and at times the pressure was a bit too much but she adjusted the pressure as soon as I said something. She is exceptional at her skill and can't wait to try the acupuncture this week. The clinic was nice and clean, smelled nice and was overall, very relaxing and peaceful. I will highly recommend Needle of Knot Health Therapies to my family and friends.
