---

Phil,

As a follow-up to our discussion last week, the following is a list of the interactions between our project team and the US Army Corps of Engineers on the Granite State Landfill Project:

- 5/30/2019 - Participation by Chris Marron in the project kick-off meeting;
- 7/8/2020 – Participation by Lindsey Lefebvre in a wetlands permitting planning meeting in Concord, MA, including representation from USEPA and NHDES wetlands (remote);
- 8/31/2020 – Site visit by Lindsey Lefebvre at North Country Environmental Services (NCES) and GSL
- 10/27/2020 – Mitigation review site visit by Lindsey Lefebvre at NCES and GSL

As you can see, we have made explicit efforts to include the USACOE in the project throughout the last two years, and are quite surprised at any indication that they have not been in the loop on both the project and the approach on functional wetlands. Barry Keith, our wetlands consultant, has also had multiple phone calls with Lindsey Lefebvre to keep her in the loop on project progress. Please let us know if you would like any further information on these interactions.

Thanks, Sam
