**Re: Proposed Granite State Landfill, 172 Douglas Drive, Dalton, NH  
Standard Permit Application Number 2021-52265**

Dear Ms. Colby:

Thank you for your letter of October 14, 2021 addressing your expectations concerning the timing of Granite State Landfill LLC (GSL) submittals to the New Hampshire Department of Environmental Services, Waste Management Division (NHDES).

GSL expects to continue with submission of information to NHDES as noted in your correspondence, and appreciates that you interpret Env-Sw 304.03 as requiring that "a solid waste application must have the substantive content necessary for NHDES to conduct a technical review" for an application to be deemed complete. Please understand that we must reserve our right to contest this interpretation if it results in an unreasonable delay in the processing of GSL's application.

Thank you in advance for your attention to this matter. If you should have questions or concerns, please reach out to me at (802) 651-5454, or by email at [john.gay@casella.com](mailto:john.gay@casella.com).

Sincerely,

A handwritten signature in black ink, appearing to read "J. Gay", written in a cursive style.
