

April 21, 2024

West 86th Neighbors,

We hope everyone was able to enjoy the Solar eclipse and is looking forward to warmer weather!

As a Board, we would like to introduce the newly formed Neighborhood Council and distribute a survey they have developed.

In December 2023, a group of neighbors formed the Neighborhood Council with the purpose of fostering a collaborative and vibrant neighborhood. This independent group will be operating in an advisory capacity and looking to identify opportunities in the neighborhood based on input from all neighbors. They have created a letter and a survey for the community that has been delivered to your mailboxes. It will also be sent via a link this evening for the electronic version. After collecting survey results, the Council will provide results and recommendations to the Board on solutions or business plans to accomplish these opportunities. As representatives of the community, we will consider recommendations that represent the best interest of the neighborhood.

To assist in their efforts, we are using our community communication tools to distribute their information. The board wishes to thank them for their effort, and we look forward to the ideas and proposals they present from your feedback.

Sincerely,
West 86th HOA Board of Directors
