Introduction to Grand Jury

Grand Jury Introduction:

- Grand juries were common at one point in Canada, and they are a measure of protection for the people against an out-of-control government.
- It is legal, lawful, and constitutional.
- Grand juries are outside of the common legal system, it's done by the people, and you don't need permission from anyone to do it.
- Grand juries are held against the state, not an individual.
- To bring the State before a State's judge would present a conflict of interest because State judges are normally paid by the State, and the same goes for criminal justice.
- Witnesses such as police are also often paid by the state. all of this would make it difficult to have a fair trial.
