03. TO LAST
04. TO MATCH
05. TO ORGANIZE
06. FOR KITCHENS
07. FOR BATHS
08. FOR ENTERTAINMENT
09. FOR WORK
10. FOR DEALERS NATIONWIDE

# 01. KRAFTED IN AMERICA

The Kountry Kraft story is exemplary of the American Dream. In 1959, Elvin Hurst, Sr. and his wife, Helen Hurst, decided to be more than just farmers; they decided to craft custom cabinetry after Helen gifted Elvin a table saw for Christmas. The company was built out of the family farm in Newmanstown, Pennsylvania, where the company still resides today.

Now, two of their four children own Kountry Kraft; Dee Hurst-Funk, CFO, and Elvin Hurst, Jr. President. The shop employs over 100 skilled craftsmen and women, each working to support their own American dream. We are proud of our commitment to keeping valuable skilled manufacturing jobs in the USA and continuing the tradition of American craftsman ingenuity.

The American dream lives on through our custom cabinetry. Not only is each piece handcrafted in the USA, it breathes in homes across the nation. Dealers nationwide proudly represent our cabinetry... making us truly "krafted in America."

Kountry Kraft Founders, Elvin Hurst Sr. and Helen Hurst

# 02. KRAFTED BY IMPORTANT PEOPLE

Our dealers often tell us that one of the most valuable assets at Kountry Kraft is its people. "We value our employees as our biggest asset," Elvin Hurst Sr. said. "They're more important than our buildings and equipment." The Hurst family always credits its employees for the company's success. Pictured above, the sign above the employee entrance says it all.

Our skilled craftsmen and women have over 1500 years of combined experience that shows in the quality of our products. In addition to being skilled in the art of custom cabinetry, our hardworking team maintains a legacy of excellent service. Each member of our team stays true to the four guiding principles on which the company was founded:

1. Craft the highest quality custom cabinetry products
2. Deliver on schedule every time
3. Price fairly
4. Be honest, genuine and friendly in every aspect of our business

# 03. KRAFTED TO LAST

At Kountry Kraft, artisan craftsmanship is a highly valued and desired skill that is passed through generations. Kountry Kraft is one of the few manufacturers who dovetail our cabinet boxes. Dovetailing creates an extremely strong joint between two pieces of wood that can withstand heavy use. It requires a great deal of skill and experience to do it correctly, but the team of skilled craftsmen here at Kountry Kraft are able to do an excellent job. Most cabinet manufacturers don't go through the added work and expense to dovetail. However, to us it's an absolute requirement in our boxes and drawers.

Our custom cabinet lifetime warranty is your assurance that we stand behind every hand-crafted cabinetry order we produce. All Kountry Kraft products are custom crafted from specially selected lumber using furniture grade solid woods and veneers, truly making them "krafted to last."

# 04. KRAFTED TO MATCH

Custom cabinetry is not only built to last, but built to look good, too. Paint, stain, and metal fusion are just the beginning of an endless selection of finishes. When combined with sheen levels encompassing everything from matte to high gloss, numerous glaze options, a variety of finishing techniques, and many distressing packages, our craftsmen and women create one-of-a-kind cabinetry.

Each finish is achieved through an intensive multistep process that reveals the natural character of the wood. Our color lab technicians have developed thousands of custom colors and effects, ranging from farmhouse rustic to sleek modern.

With the ability to custom match brand name paints and customer samples, Kountry Kraft cabinetry is always “krafted to match” the room and the personality of those living in it.

# 05. KRAFTED TO ORGANIZE

Design by PKsurroundings | Photography by Rob Karosis Photography

Kountry Kraft custom accessories line allows for optimum use of space in every nook and cranny of your home.

To imagine how customization can improve both the functionality of your home and your enjoyment of it, consider your habits. Do you struggle to find a certain herb or spice in your existing kitchen? Are your drawers cluttered? Is finding a place to store your baking pans a challenge? These are some of the many challenges homeowners experience when trying to work around a kitchen not designed to suit their needs.

Today's storage features include a wide range of options that can help solve even the biggest cabinet organization challenges. If you're not sure where to begin to plan your custom cabinetry, we can help. Chances are, we can even suggest a few custom cabinet options that will have your new kitchen operating more functionally and elegantly than you ever thought possible. From custom pet bowl drawers to spice racks, our cabinetry is truly "krafted to organize."

# 06. KRAFTED FOR KITCHENS

In today's society, the kitchen has become the center of our homes. It serves many roles – a place to gather for meals, a central location to manage all of your family business, a place to do homework with your kids, and an area to entertain guests. Whether your kitchen is your personal playground, a family oasis, or an entertainment area, your kitchen cabinets should provide storage solutions, accessibility and movement that mirror your lifestyle.

Because your kitchen is so important to your family, cabinetry needs to be just as stylish as it is functional. Your cabinets need to fit into the style of the rest of your home. In an effort to keep kitchen counters clean and accessible for packing lunches or making dinner, cabinets should be designed to efficiently fit pots, pans, spices and more.

Custom cabinets “krafted for kitchens” allow for quicker, easier food preparation, cooking and cleaning so you can spend more time enjoying what really matters.

# 07. KRAFTED FOR BATHS

Design by Jessica McAllister of Kountry Kraft

A bathroom is an essential beginning to each successful day and a relaxing retreat in the evening. An absolute necessity is a bathroom with versatility. Custom cabinets and vanities can make a bathroom an oasis of functionality and organization.

When determining custom bathroom cabinetry needs, every homeowner requires something a little different; from built-in towel storage to a place to store a child's bath toys to a central make up application area. Whether you have tons of space or a tiny space, custom cabinets can be designed and crafted to suit your family's style and needs.

Even your bathroom vanity can include integrated options to make your bathroom space more functional. Vanities can include drawers of all shapes and sizes to clear the clutter from the counter. Vanities coupled with other cabinets "krafted for baths" can turn a bathroom into a place you'll love to start and finish each day.

# 08. KRAFTED FOR ENTERTAINMENT

Design by PKsurroundings | Photography by Rob Karosis Photography

Developing entertainment areas in your home is a great way to enhance your family's together time. Home theatres with built-in entertainment centers and bars with custom bar cabinets are a great addition to any home. Recreation space allows you to invite friends and family to watch a movie, play games, as well as host a party.

Beverage refrigerators, integrated wine glass holders and more can be designed to fit within the custom cabinetry for any entertainment space. The possibilities for your new entertainment area are endless. Every corner of your home can carry your style and express your individuality.

We recommend carefully evaluating the way you plan to use the entertainment area you construct in your home. Building a space that will accommodate all of your needs will ensure that your home bar is truly "krafted for entertainment."

# 09. KRAFTED FOR WORK

Design by Galen Clemmer of Kountry Kraft | Photography by Tom Crane Photography

Having an area to productively manage your household - whether its the laundry, mail, personal finances, or even a place to craft - is an important step to organizing your home. You can create an environment designed specifically for the way you and your family work.

An office, for example, may include built-in bookcases and custom file storage. A craft room, like the one pictured above, may feature one-of-a-kind pieces that are designed to be effective and convenient. Laundry rooms with cleverly designed storage cabinets make a daunting task easy and quick to complete.

Taken a step further, Kountry Kraft also crafts millwork, matching the custom cabinetry for a truly breathtaking design. Custom crown molding, pilasters and coffered ceilings provide elegance and design perfection.

Kountry Kraft can help you tailor your home to include custom cabinet solutions that are truly "krafted to work."

# 10. KRAFTED FOR DEALERS NATIONWIDE

Kountry Kraft is dedicated to our partnerships with kitchen and bath professionals to provide the finest products available on the market today, always an exceptional value, always on time and produced exactly to specifications. Visit our website to find a dealer nearest you.

*"We launched Stonington nearly three years ago after spending 10 years with our family's residential construction business. With our background, we knew we needed to partner with a cabinet manufacturer that would flawlessly produce our kitchen designs, as well as provide a proven reputation for exceptional cabinetry. Kountry Kraft has done just that, exceeding our (and our clients') high expectations repeatedly, on all of our projects.*

*Kountry Kraft has been an excellent partner, allowing us to focus on what we do best - designing kitchens."*

**- Justin Sachs of Stonington Cabinetry & Designs**

*"Kountry Kraft's extensive team is very knowledgeable and always available to work through all of the details in a very professional manner. Looking back on our business relationship of approximately 15 years, I can't think of a project that I've done with Kountry Kraft that hasn't exceeded my expectations."*

**- PKsurroundings**

*"Kountry Kraft does everything well. They're the best business partner I've ever had. We have the same philosophy on everything. We've had a blessed relationship for almost 25 years. They just don't fall short - every time I ask them to do something that's different, they exceed my expectations."*
