

Steel Tile panels, including accessories, trims and flashings, are available in 13 standard colours and one special wall finish, to achieve your design vision. Crinkle colours are available in 26 and 29 gauge steel. The advanced Weather XL technology is formulated with a proprietary durable resin which provides superior resistance to chalking and fading, especially in extreme heat and UV exposure locations. Weather XL paint's exceptional coating hardness, flex ratio and abrasion resistance out-performs other finishes in the harshest of climates. Weather XL paint provides a new level of long term exterior performance for building product applications with the best warranty in the business.
