Dr James Thorp is an extensively published 68-year-old physician MD from Florida, he is board-certified in obstetrics and gynecology (OB/GYN) as well as a specialist in maternal-fetal medicine, who has practiced obstetrics for over 42 years.

In his practice he would see 6,000–7,000 high-risk pregnant patients a year and since the COVID-19 vaccines have rolled out he has witnessed many more cases of fetal deaths and miscarriages inside mothers. Attempts to quantify these adverse effects are hampered by the imposition of September 2021 gag orders on physicians and nurses. [\[ref\]](#)

"I've seen many, many, many complications in pregnant women, in moms and in fetuses, in children, offspring...fetal death, miscarriage, death of the fetus inside the mom."

"What I've seen in the last two years is

unprecedented,

— Dr James Thorp told [Epoch Times](#)

The the [Pfizer FOIA documents](#) were released to the public [revealing](#) that there were 274 pregnancy adverse events, of which 75 were “[serious](#)”, yet the public health [authorities](#) and the The American College of Obstetricians and Gynecologists ([ACOG](#)) strongly recommend the vaccine during pregnancy!

Dr. Thorp is risking his career by speaking out on the truth of what he is seeing in his practice and what the publicly available Pfizer documents and VAERS are showing – These mRNA vaccines are not safe in pregnancy for both mother and growing child at a minimum.

August 5, 2022 – Dr. James Thorp Interviews Albert Benevides – The World Expert on VAERS – [WATCH](#), [GETTR](#)

This video demonstrates that VAERS is an extremely important pharmacovigilance tool and must never be marginalized. There are 20 plus other completely independent sources that validate VAERS and in fact demonstrate worse danger signals than VAERS. Albert proves that VAERS is being “throttled” using many tactics from the corrupt CDC, FDA and medical industrial complex.
