Members of the COVID-19 Community Corps

Nearly 17,000 organizations and individuals across the United States have joined the COVID-19 Community Corps. They've committed to take action to encourage their families, friends, and members of their communities to get vaccinated for COVID-19.

Below is a list of our founding members that launched this program with us. More organizations and individuals sign up each day. [To join our founding members and many others in the COVID-19 Community Corps, visit this page.](#)

Public Health & Medical Organizations

- Advancing Health Equity
- American Association of Nurse Practitioners
- American Academy of Pediatrics

ABOUT THE CAMPAIGN

The HHS COVID-19 public education campaign is a national initiative to increase public confidence in and uptake of COVID-19 vaccines while reinforcing basic prevention measures such as mask wearing and social distancing. The campaign also increases awareness about COVID treatments and heightens urgency to talk to a doctor at first sign of symptoms.

[COVID Facts: Updated Vaccines. Tell Me More.](#)

A video explaining that an updated COVID vaccine offers you targeted protection from the original COVID virus and Omicron.

Updated COVID vaccines are now available for children 6 months and older.

[Eligibility Update for Updated COVID Vaccines](#)

Social media post announcing expanded eligibility of updated COVID vaccines for children 6 months and older.

Update Your COVID-19 Vaccination Protection

COVID vaccines continue to work very well at preventing severe illness, hospitalization, and death. Updated COVID vaccines are here to help protect against Omicron.

Get your updated vaccine now if your last dose was either the original COVID-19 vaccine (2020 to late 2021) or the updated vaccine (2022 to late 2022).

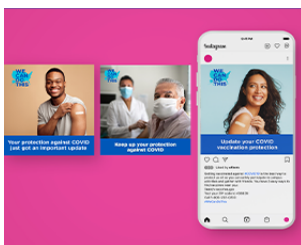

Omicron will last 2 months after you complete your primary vaccination series.

Completing your primary vaccination series means you got your first 2 doses of the Pfizer-BioNTech, Moderna, or Novavax vaccine, or your 1 dose of Johnson & Johnson Adenovirus vaccine. Children 6 months – 4 years who got all 3 doses of the Pfizer-BioNTech primary vaccination series should start an updated vaccine at this time.

Facts About COVID-19 and the Vaccines

COVID-19
What is COVID-19 and why is vaccination so important?
COVID-19 is an infectious disease caused by the SARS-CoV-2 coronavirus. The disease was first identified in Wuhan, China, in late 2019 and has since spread to many other parts of the world. It is a respiratory illness that can cause a wide range of symptoms, from mild to severe. Vaccines help protect against COVID-19 and its complications. The most common symptoms are cough, fever, and shortness of breath. Vaccines are available for people aged 18 and older. They are safe and effective. Vaccines help prevent severe illness and hospitalization. Vaccines help prevent death. Vaccines help protect your loved ones. Vaccines help protect your community. Vaccines help protect our country. Vaccines help protect our world.
