Global News: A Global Passport for Vaccines and Carbon Tracking

They're Coming...

ROBERT W MALONE MD, MS

NOV 22, 2022

[International News: G-20 Promotes WHO-Standardized Global Vaccine Passport and 'Digital Health' Identity Scheme](#)

BBN, Sunday, November 20, 2022.

While some suggest they are laying out the groundwork for the potential permanent banishment of 'undesirables' from society, leaders of the Group of 20 nations have called for a global standard on proof of vaccination for international travel and the establishment of "global digital health networks" that build on existing digital COVID-19 vaccine passport schemes, according to [the Epoch Times](#).

“We acknowledge the importance of shared technical standards and verification methods, under the framework of the IHR (2005), to facilitate seamless international travel, interoperability, and recognizing digital solutions and non-digital solutions, including proof of vaccinations,” the G20 joint declaration reads.

This agreement actually was first codified in the spring of 2021. This was covered in a Forbes article, written in May 2021, entitled “Vaccine Passports: World’s 20 Biggest Economies Give Go-Ahead.” This 2021 article states that: “The G20 meeting—where the world’s biggest economies meet to make decisions—took place Tuesday, and members decided to throw their weight behind vaccination passports, as a means of boosting the global travel and tourism economy.”

Somehow, this decision by the G20, made over 1.5 years ago, that vaccine passports would become mandatory within a short period of time managed to escape media attention. Now - of course, it is almost a *fait accompli*. Of note, many countries have now pledged hundreds of millions, if not billions to the development of such a passport.

[G20 Promotes WHO-Standardized Global Vaccine Passport and ‘Digital Health’ Identity Scheme](#)

Epoch Health, Nov 17, 2022

‘Digital Gulag’

Journalist Nick Corbishley, who writes about economic and political trends in Europe and Latin America, [has warned](#) that vaccine passports can lead to the implementation of a global digital identity scheme that will threaten privacy and freedom across the world.

“It’s like this checkpoint society. Wherever you want to go, you have to show your mobile phone, your identity ... even if it’s just to go into a supermarket or go into a shop,” he told EpochTV’s [Crossroads](#) program.

Corbishley described the negative aspects of a global digital identification scheme as a kind of “digital gulag” in which people could be “effectively banished from society.”

“That is a terrifying vision,” he said.

[World Leaders Agree To Implement Vaccine Passports](#)

Liberty Counsel, Nov 17, 2022

“I cannot say this forcefully enough: This is literally the end of human liberty in the West if this plan unfolds as planned... Vaccine passports sound like a fine thing if you don't know what those platforms can do. I'm CEO of a tech company, I understand what this platform does. It's not about the vaccine, it's not about the virus, it's about data. And once this rolls out you don't have a choice about being part of the system. What people have to understand is that any other functionality can be loaded onto that platform with no problem at all” stated Naomi Wolf, an author and Rhodes Scholar, predicted that the vaccine passport would eventually track every aspect of people's lives and would violate the U.S. Constitution, the Americans With Disabilities Act, and HIPAA.

The Massachusetts Institute of Technology's Technology Review [states](#), “This new social order will seem unthinkable to most people in so-called free countries. But any change can quickly become normal if people accept it. The new normal will be that we are used to the idea that in some cases being able to move around freely is dependent on us being able to show that we're healthy. There will be a greater acceptance, I think, of that kind of public health monitoring.”

Liberty Counsel Founder and Chairman Mat Staver said,

“Digital health or vaccine passports along with tracking and tracing apps present a serious threat to freedom. Vaccine passports and tracking apps are about collecting data and control. The vaccine passport is being promoted worldwide to limit a person's ability to leave home, work, shop, dine, travel, attend a public event, or even worship. COVID is being used to advance this dangerous threat to freedom. We must never accept vaccine passports or tracking apps as the new normal. The implications for freedom are significant.”

[From vaccine passports to personal carbon passports: Get ready for CLIMATE-21 fossil fuel virus lockdowns](#)

Does COVID-19 justify the global carbon plans?

Financial Post, Sep 08, 2021

Somewhere deep in the cranium of the climate intelligentsia a seed was planted to produce the florid idea that the global COVID-19 virus could serve as inspiration for humankind to once and for all tackle the looming climate crisis. Mark Carney, the global master of modern corporatism's climate crusade, dedicates a whole chapter of his book Value(s) to the COVID/climate nexus. "If we come together to meet the biggest challenges in medical biology, so too can we come together to meet the challenges of climate physics and the forces driving inequality."

That message came clearly this week when [220 medical journals](#) around the world — including the [Canadian Medical Association Journal](#) — all of which published the same "editorial" under the headline: "Call for emergency action to limit global temperature increases, restore biodiversity, and protect health."...

Given the current state of the global pandemic, the assumption that the COVID control experience shows the way forward may strike many as a little premature. It is not obvious that we need to fight the climate with big government interventions, backed by corporations, to totally reshape the global economic and power system.

So here we are. From vaccine passports to digital IDs to tracking "carbon footprints," these goals are working at "warp speed."

What is it going to take to stop this globalized version of insanity?
