## Pfizer Exec Admits Covid Vaccine Never Tested on Preventing Transmission

<https://lynnwoodtimes.com/2022/10/11/covid-transmission-221011/>

Regarding the question around did we know about stopping immunization before it entered the market...No.," Small replied when asked by Roos if the Pfizer' COVID vaccine was ever tested to stop the transmission of the virus before it entered the market.

She continued, "We have to really move at the speed of science to really understand what is taking place in the market."

# never tested on preventing transmissions

📅 October 11, 2022 👤 Mario Lotmore 💬 16 Comments

**BRUSSELS**—During a hearing today on the European Union’s COVID-19 response, Pfizer’s president of international developed markets, Janine Small, admitted that its vaccine had never been tested before its release to the general public on its ability to prevent the transmission of COVID when asked by Dutch politician and a current **Member of the European Parliament** (MEP) Robert “Rob” Roos.

“Regarding the question around did we know about stopping immunization before it entered the market...No.,” Small replied with a smirk when asked by Roos if the Pfizer’ COVID vaccine was ever tested to stop the transmission of the virus before it entered the market.

She continued, “We have to really move at the speed of science to really understand what is taking place in the market.”

Janine Small

It was not clear from the questioning of Ms. Small if she were referring to the Pfizer BioNTech (BNT162b2) vaccine which is authorized under **Emergency Use Authorization** or Comirnaty which is the **FDA-approved vaccine**. Under an Emergency Use Authorization, vaccines cannot be mandated.

According to the August 2022 article, *The Pfizer BioNTech (BNT162b2) COVID-19 vaccine: What you need to know*, it states that there “is modest vaccine impact on transmission” to prevent COVID infection.

In response to the COVID-19 pandemic, the EU implemented a wide range of health policies with its EU Vaccines Strategy and initiatives, one being **EU Digital COVID Certificates** which exempted persons from “**free movement**” restrictions. The EU implemented “free movement” restrictions to slow down the spread of coronavirus and protect the health and well-being of all Europeans.

Robert "Rob" Roos

EU Parliamentarian Roos, exposed an alleged misinformation campaign by Pfizer with the release of his video tweet today. In it he called the actions "criminal", "scandalous" and "a cheap lie."

Below is a transcript of Roos' Twitter post:

*"If you don't get vaccinated, you're antisocial. This is what the Dutch prime minister and health minister told us. You don't get vaccinated just for yourself, but also for others. You do it for all of society, that's what they said. Today, this turned out to be complete nonsense.*

*"In a COVID hearing in the European Parliament, one of the Pfizer directors just admitted to me at the time of introduction, the vaccine had never been tested on stopping the transmission of the virus.*

*"This removes the entire legal basis for the COVID Passport. The COVID passport that led to massive institutional discrimination as people lost access to essential parts of society. I find this to be shocking, even criminal."*

*"This is scandalous. Millions of people worldwide felt forced to get vaccinated because of the myth that 'you do it for others.' Now this turned out to be a cheap lie.*

BREAKING:

“

“Get vaccinated for others” was always a lie.

“

The only purpose of the [#COVID](#) passport: forcing people to get vaccinated.

“

The world needs to know. Share this video! [pic.twitter.com/su1WqgB4dO](https://pic.twitter.com/su1WqgB4dO)

“

Its time to change the president of EU Parliament, corruption is not part of our education and corrupt people have no business in this chair. Madam has signed contracts that we have no idea about, so this is no longer a democracy, so MADAME should go... resign. Thanks Sir Roos.

This is a big nothing-burger. The original vaccines were proven very successful in preventing contracting the virus. If 80% of the population was vaccinated, then there would be far less transmission than if 40% of the population was vaccinated. This "bombshell" is just conspiracy theory crap without context.

It is worse, politicians paid off by Pharma around the world and all over the USA and Canada should be held accountable for mass genocide. Where are the studies on long term effects from these poisons? Fauchi caused way more deaths and torture to the world than any Adolph Hitler! Marxist Democrats in the USA ruined lives forcing jabs of poison on employees and the elderly. The new clinical study in Florida shows 40% death rates !

It's an upper respiratory illness. How can you transmit it without contracting it? And there have been plenty of reports of vaccinated individuals testing positive for the virus. In your words, please think again critically.

All Pharma is connected. We worked for Pfizer . They owned Monsanto, the Roundup poison people. There is not competition in Pharma. Viagra/ Livitra, Cialis, all the same chemical which costs pennies just happened to come out within a year, WOW!! Bextra from Pfizer killed many and Pfizer left it on the market. The jabs were planned way in advance, they not need drug reps to lie about fake studies, they used Propaganda Fake News to do it and Corrupt politicians as many went on camera to take the jabs! These people are disgusting and evil, End times for sure in the world.

Crazy, the Pfizer Vaccine was authorized for emergency use to prevent COVID-19, but it was not actually tested to see if it did.

You need to contract a virus to be able to transmit it, as far as I know
