After three years of scientific research, millions of patients treated, hundreds of clinical trials performed and scientific data shared, we have demonstrated and documented our success in understanding and combating the COVID-19 orchestrated crisis. In considering the risks versus benefits of major policy decisions, our coalition of 17,000 physicians and medical scientists from all over the world have reached the following, updated consensus:

We declare, and the data confirm that COVID-19 experimental genetic therapy injections must end. All COVID-19 and other modified mRNA “vaccines” must be immediately discontinued. We demand Covid-19 "vaccines" be removed from the CDC pediatric vaccine schedule.

We declare these products meet definition of gene therapies, and the FDA has refused to regulate them as such.

We declare physicians should never be blocked from providing any necessary medical treatment.

We declare the emergency use authorization, that is allowing yet another untested version of the “vaccine” to be administered without formal regulatory approval, should be immediately terminated.

We declare the governing bodies of the world should have their emergency powers limited in both time and scope.

We declare medical privacy should never again be violated, and all travel, religious and social restrictions must never be repeated.

We declare masks are not, nor have ever been, effective protection against an airborne respiratory virus and should never again be mandated.

We declare injury from COVID-19 “vaccines” must be recognized. Compensation must be provided for those injured by these injections. Funding must be allocated to the study of these syndromes and the development of diagnostics and treatments should be pursued.

We declare no individual’s economic, educational, military or employment opportunity should be denied over accepting or declining a medical intervention. Medical freedom and informed consent are essential human rights.

We declare free speech violations and medical censorship by governments, technology/media companies, governing medical bodies, academia, hospital systems, and the medical industrial complex should cease, and fundamental individual human rights be forever upheld.

We declare Pfizer, Moderna, BioNTech, Janssen, Astra Zeneca studies were severely flawed, and they withheld safety and efficacy information from patients and physicians. They should face legal consequences for their dereliction of scientific duty which resulted in countless unnecessary disability and deaths.

We declare governments, media, global regulatory bodies, and medical agencies, such as CDC, FDA, NIH, NIAID, MHRA, NHS, TGA, SAPRA etc, and unelected international bodies including but not limited to WHO, WEF, UN, GAVI, and EcoHealth Alliance must be held accountable for mandating policies and procedures, and directing funding for reckless gain of function research that resulted in massive harms.
