FLEA TREATMENT DISCLOSURE

In order for a flea treatment to be effective and qualify for the included warranty, we require the following be done:

- leave the property for two hours following the initial treatment.
- vacuum once daily and either dispose of the vacuum bag **each day** in an outdoor trash dumpster, or wash the canister thoroughly with very hot water.
- get any and all animals professionally treated for fleas the same day of the initial treatment and wash pet bedding before the animals return.
- do not mop in areas where chemical has been sprayed for 14 days following each spray.
- successfully schedule a follow up appointment within 10-14 days of initial treatment.

The cost of the treatment includes any follow-ups necessary within 45 days of treatment (on interior treatments only) as long as the above stated conditions are met. However, if no follow-up is done within 21 days of initial treatment, the warranty will be immediately voided. There is no warranty for outdoor flea treatments (yard sprays). Please do not hesitate to give us a call at (405) 330-5030 should you have any questions or concerns.
