# DON'T LET MOSQUITOES KEEP YOU INDOORS

Our licensed and trained technicians can help your family enjoy your outdoor space all season long!

[CLICK HERE TO SIGN UP](#)

## THE SERVICE

Our technician will service areas mosquitoes typically shelter such as bushes, shrubs, plants, and low hanging trees.

## COMMUNICATION

We will leave a door hanger after each service and the technician will note any areas of concern on the back.

## BREEDING SITES

We will also identify potential breeding sites in your yard and service with a larvicide to prevent mosquito larvae from becoming adults.

## SAFE FOR YOUR FAMILY

We use a synthetic form of pyrethrin called pyrethroids. Synthetic pyrethroids are used in numerous products such as household insecticides, pet shampoos and even lice shampoos.
