Transforming your business with cutting-edge solutions.

A True Talent Technology Company

North America | India

OUR STORY

Company Overview

BroadNexus is a global technology and talent solutions start-up headquartered in North America. Founded in 2017 by two seasoned IT consulting professionals, our company aims to bridge the gap between exceptional tech talent and leading organizations worldwide. With a strong focus on market research, technology consulting, HR advisory, digital transformation, strategic marketing, financial planning, efficient operations, and strong leadership, BroadNexus is poised to become a trusted partner in the global technology solutions and recruitment industry.

We offer a comprehensive portfolio of IT services with a distinct focus on providing digital transformation, cloud computing, and enterprise solutions (CRM, ERP, and BI): consulting, implementation, production support, upgrades, product engineering services, business re-engineering services, mobile-based custom applications, enterprise educational services, social media integration tools, custom CRM/BI product development, portal development, and staff enhancement services.

LOCAL PARTNER. GLOBAL REACH.

Our mission is to connect companies with highly skilled professionals who align with their specific requirements and culture. With headquarters in the USA, Canada, and India, we have a global reach and can serve clients and candidates from various industries and regions.

BroadNexus is digital, business, and technology consulting centered on you. You need an experience unmatched anywhere else, with knowledgeable and thoughtful consultants plus flexible, tailored approaches—all centered on the right outcomes for your business.

Our vision is to empower business and individuals by connecting top-tier talent with innovative opportunities, thereby fostering growth, diversity, and excellence in the ever evolving landscape of technology.

BroadNexus is a global technology opportunity network company that offers edge cloud, automation, artificial intelligence (AI), machine learning (ML), cyber security, communication, and collaboration products & solutions.

Strategical

Collaboration with hiring and account managers regularly to finalise talent. Make cost arbitration dependent on the volume available.

Tactical

Regular intervals of collaboration with Hiring/Account Managers in finalizing the talent. Provide volume-based cost arbitration.

Operational

Expert profile screening, assessment and level 1 volume-based interview session on behalf of the client. Provide candidate summary(Psychometric/Role skills/Comp check/Video interviews) for a quick decision.
