"Where every student is a star"

AUDIO-VISUAL LEARNING

A smart classroom equipped with a computer and audio-visual equipment allows the instructor to teach using various media. Smart class is a digital initiative, which is rapidly transforming the way teachers teach and students learn.

100% RBSE BOARD RESULTS

School has been giving consistent good results from past several years with proper guidance and support from the talented subject teachers students always bring glory to the institution.

DEDICATED TEACHERS

Highly qualified staff members teaching various subjects in School are always there to help their students and encourage them to become a better version of themselves and succeed in Life

INDIVIDUAL DEVELOPMENT

Our efforts are always directed toward the holistic development of students and their minds. The school focuses on the mental as well as physical well-being of its students.

WELL EQUIPPED COMPUTER LABS

Computer labs in our school provide students with access to technology and help them develop essential computer skills. With the increasing importance of technology in today's society, it is crucial for students to be proficient in using computers and software programs.

SMART AND DIGITAL CLASSES

Smart and digital classes are important in schools because they offer a more interactive and engaging learning experience for students. By incorporating technology into the classroom, teachers can enhance their lesson plans with multimedia resources such as videos, animations, and interactive educational software.

IN THE HEART OF SUJANGARH

Being located in a central area of the city has its advantages and challenges. On the one hand, it provides easy access to public transportation, commercial areas, and cultural attractions, which can enrich the educational experience of students.

LIBRARY

The library is an essential part of any school, serving as a valuable resource for both students and faculty. It plays a vital role in promoting academic excellence, fostering a love for reading, and providing access to a wealth of information.

PLAYGROUNDS

Encourage social interaction: Playgrounds provide a space where students can interact and develop social skills, such as communication, cooperation, and teamwork.

RO WATER COOLERS

Healthy water facilities in schools are crucial for promoting good health and hygiene among students and staff. Access to clean and safe drinking water is essential for maintaining proper hydration, which is important for cognitive function and overall health.

WELL MAINTAINED SANITATION FACILITIES.

Proper sanitation facilities such as clean toilets, handwashing stations, and waste disposal systems can help prevent the spread of diseases and illnesses. They also play a critical role in promoting regular attendance and academic performance.

SPACIOUS AND WELL-VENTILATED CLASSROOM WITH AIR CONDITIONERS.

School has spacious and well-ventilated air-conditioned classrooms. Such facilities can provide a comfortable and conducive learning environment for students, which can enhance their academic performance and overall well-being.
