## ABOUT THE MICKEY MOUSE CLUB

Filmed at Hollywood Studios in Walt Disney World, The 'All New' Mickey Mouse Club debuted in 1989 on the Disney Channel.

Much more than a variety show, it promoted important social causes such as diversity & inclusion and concern for the environment, and as a performing arts academy, trained some of the biggest stars of the modern era.

Cast members have gone on to play a pivotal role in shaping the last 30 years of popular culture with critically acclaimed and wildly successful projects across music, film, television and theater... and they're still making an impact today.

"MMC was the most informative experience I've ever had as an entertainer." - **Justin Timberlake (Mouseketeer)**

"What an incredible honor it has been representing one of Walt's passion projects. The show helped in raising us to be socially conscious and gave us the ultimate gift of the exposure to each other's beliefs, skills, and backgrounds to learn, grow and build upon."

- **Chasen Hampton (Mouseketeer, member of The Party)**
