Please keep these members and their families in your prayers

DID YOU KNOW?

Lo sapevate?

On March 6th, 1475, Michelangelo, arguably the greatest artist who ever lived, was born. A painter, sculptor, and architect, Michelangelo di Lodovico Buonarroti Simoni is synonymous with the Italian Renaissance, and his works are among the most highly regarded of all time. His most famous sculpture is, without a doubt, the David, on display at the Accademia Gallery in Florence. In Saint Peter's Basilica in Rome you can view another of his famous sculptures, the Pieta.

The dome of Saint Peter's Basilica is one of Michelangelo's architectural designs.

Though he considered painting a lesser art, his frescoes on the ceiling and walls of the Sistine Chapel are masterpieces.

His contemporaries were well aware of Michelangelo's talents, and he had not one but two biographies written about him during his lifetime. A Florentine at heart, Michelangelo lived the greater part of his life in Rome. He died at the age of 88.
