

Abu Taleb Tawfik Abu Taleb
Chairman
EgyptAir Maintenance & Engineering
Egypt

Abu Taleb Tawfik Abu Taleb is the chairman of EGYPTAIR Maintenance and Engineering. He holds a bachelor degree in Aeronautical Engineering from Faculty of Engineering Cairo University.

He joined EGYPTAIR Maintenance and Engineering in 1989 as an aircraft maintenance engineer where he was promoted to senior aircraft engineer then senior specialist Aircraft engineer followed by several top executive aircraft maintenance positions such as Head of Reliability Section and Head of Aircraft System Section. Successively he was promoted to be Reliability Manager.

During his 22 years of service at EGYPTAIR Maintenance and Engineering he established Reliability program to monitor and analyze aircraft system, powerplant and component Performance by reviewing failure mode analysis and exceeders. He represented EGYPTAIR in many aircraft system and cabin interior seminars and conferences. He also participated in the preparation of EGYPTAIR M&E Maintenance Policies and Procedures Manual and Department Instruction Handbook (DIH) of Engineering Directorate.

In 2011, he held the position of Chairman of EGYPTAIR Supplementary industries where he achieved extensive changes both physically and culturally, developing its staff, procedures and business activities to satisfy the new demands of the aviation industry.

In September 2012, he occupied the position of chairman of EgyptAir Maintenance and Engineering which is an EASA 145 and FAA approved organization. Then he took the position of Consultant to EGYPTAIR Holding Company. In December 2014, He became chairman and CEO of EGYPTAIR Maintenance and Engineering for the second time due to his wide experience and distinguished record of professionalism.
