

**Jean-Marie Lussaki**  
**Director, Engineering & Maintenance**  
**Congo Airways**

Jean-Marie joined Congo Airways in April 2015 as Engineering & Maintenance Director and he, actively, participated in the set-up of the E&M department of the start-up airlines. The airline operates 2 airbus A320 and 2 Bombardier Q400.

Before joining Congo Airways, He found in 2012, Alcyon Consulting a dedicated consulting company providing strategic advices and full technical services to airlines, leasing companies, maintenance centres and aviation institutions across the world. The services offered and performed led him In Myanmar for six months as Project Coordinator Manager on behalf of ATR, in Montpellier and Toulouse as COO of the MRO Latecoere Aeroservices, in DRC as Managing Director of Air Kasai and as consultant in several project mainly in France and the Caribbean

During the previous six years, as Deputy General Director of Derichebourg Atis Aéronautique (DAA) a major French services provider to aircraft manufacturers, airlines and aircraft owners for the engineering and maintenance of their aircraft, he directed all operations .

He was also, three years before, Director of Technical Services (Line & Base Maintenance, Airworthiness Management & Logistics). He conducted the development of line maintenance activity becoming the second provider in France behind Air France and conducted the launching and technical management within the Dutch airline KLM Exel.

Prior to joining DAA, Jean-Marie worked within different Airlines: Air Caraïbes as Engineering & Maintenance Director, Deputy Maintenance director and Quality Director in Regional Airlines. In the beginning of the 90's he was Maintenance manager at Sabena Technics in Dinard, France.

After Engineer and business management education, all its activity was dedicated to the aircraft industry.
