

**Issam Al Farhan**  
**Global Sales Manager**  
**Turbine Services & Solutions Aerospace**

Issam Al Farhan joined Turbine Services & Solutions (TS&S) as a Global Sales Manager for the TS&S Aerospace division in 2015. In his current role, Issam oversees global sales accounts for the GEnx, Trent 700, V2500 and PT6 engines.

Prior to joining TS&S, Issam was an Area Sales Director for Abu Dhabi Aircraft Technologies (ADAT), and worked a multi-functional role to support SR Technics (a wholly owned sister company under Mubadala Aerospace offering MRO services for airframes, components, engines and technical services).

Earlier in his career, Issam had worked for the MRO arm of Royal Jordanian Airlines for over 17 years. During his time with the airline, he accumulated a wealth of experience in Technical Sales and Marketing, Technical Product Management, Strategic Technical Planning, Business Development and Leadership and Team Management.

Issam holds an Honors degree in Aeronautical Engineering from Embry-Riddle Aeronautical University in Daytona Beach, Florida, USA.
