LIFE AND BUSINESS UPDATES

by Dr. Mark Scherping

I know it's been a while since I put out a newsletter, so I wanted to take this moment to update you on the last few years. In October of 2018, I received an opportunity to work at the wonderful office of Spring Lake Park Chiropractic.

I completely loved working there and made good friends with the owner, the other chiropractors, and the secretaries.

Unfortunately, in the Spring of 2021, the owner of Spring Lake Park Chiropractic decided to sell the business to another company. These new owners decided not to keep any of the current doctors on board, and instead, they cycled in a completely new staff of all their own employees. Simply put, I was let go.

COVID-19 INFORMATION

for this upcoming schoolyear

It would be remiss of me if I did not mention COVID-19 in this newsletter. This global virus has changed everything for everyone, and I understand that it's difficult to make a decision regarding the vaccine, especially with the upcoming schoolyear.

If you're looking for alternative options, I have attached the state's vaccine exemption form for schools to this email if any of you're interested.

Ultimately, I want to make it clear that this is a decision you and your family must make. I'm simply here to let you know all of the information and options out there so that you can make an informed decision for yourself. As such, I respect whatever your decision ends up being., and I just want to remind you that, whatever decision you make, it's the right one for you and your family.

Thank you and God bless.
