

1. What is the name of the newest character in the Surf Soup series, and what kind of island did Koa and his friends find him on?
  2. Why was Surf Soup beach closed, and what did Koa and his friends learn about being good stewards of the ocean?
  3. How did Koa and his friends try to solve the problem of the pollution at Surf Soup beach?
  4. What life lessons did Koa and his friends learn from surfing, and how did these lessons help them in their quest to help the ocean?
  5. What do you think Auntie's imagination is like, and how does she use it to create fun and engaging stories?
- 
1. Encourage kids to participate in beach cleanups or other community events that focus on cleaning up the environment.
  2. Teach kids about recycling and encourage them to recycle whenever possible. You can make it a fun game by challenging them to see how many items they can recycle in a day.
  3. Talk to kids about the impact of single-use plastics and encourage them to use reusable containers and bags whenever possible.

4. Encourage kids to conserve water by turning off the tap while brushing their teeth or taking shorter showers.
5. Teach kids about the importance of conserving energy and encourage them to turn off lights and electronics when they're not in use.
6. Read books about environmentalism and the ocean to kids, such as "The Lorax" by Dr. Seuss, "The Magic School Bus on the Ocean Floor" by Joanna Cole, and "One Plastic Bag: Isatou Ceesay and the Recycling Women of the Gambia" by Miranda Paul.
7. Take kids to visit aquariums, nature centers, or other educational centers that focus on the environment and ocean conservation.

By promoting an understanding and appreciation of the environment and the ocean, we can inspire kids to take action to protect and preserve them for future generations.
