

# Paul Family Farms

Since 1865

For over 150 years, the Paul's have partner with the land in Paul Hollow, located in Potter County, PA. As we strive to be good stewards of the land, we wanted to do our part to help the honey bee population.

And we found out, a lot of people want to join us! So we have created our Adopt-A-Hive program.

It costs us roughly \$500 to add a hive. That's materials and bees! Our materials and bees are purchased locally, built by us and installed.

## OUR OPTIONS INCLUDE:

- Quarter Hive - \$125
- Half Hive - \$250
- Full Hive - \$500

This is your chance to help support to the Honey Bees through a small family farm. Our Apiary is located on our farm, about 500 yards from the original Paul Family homestead from 1865. With over 150 years of farming, your honey bees have a lot of plants to work with, but their favorite seems to be our fields of Golden Rod.
