

## LexMar Global Expands International Markets

**Haverhill, MA— (April 22, 2024)** - LexMar Global Inc., a Haverhill, MA USA based manufacturer of process control equipment in the chemical industry recently announced a new installation of MagStation™ II equipment in Vietnam.

“LexMar Global is pleased to partner with the professional team at LT Vietnam to help extend our global market coverage into the growing chemicals industry in Vietnam.” said Scott Marino, Vice President of Sales and Operations at LexMar.

“We successfully finished installation of the new NMR unit. The customer is very satisfied with the MagStation II results. We’re promoting your product to other local customers and hope we can get more projects soon.” reported Nam Nguyen, Sales Engineer at LT Vietnam.

Vietnam represents the 52<sup>nd</sup> country where LexMar has installed equipment worldwide.

### About LexMar Global Inc.

LexMar Global Inc. provides on-line Industrial Magnetic Resonance (IMR) analyzers and laboratory instruments, custom sampling systems and electrostatic charge measurement devices for process monitoring and control applications in the chemical industry. The company holds a broad MR intellectual property portfolio.

LexMar delivers solutions to a blue-chip customer base and has strong service and distribution to the petrochemical industry in the Americas, Europe, Asia, India, North Africa and the Middle East. Its international business accounts for more than 70 percent of privately held LexMar Global’s revenues. For more information visit <http://lexmarglobal.com/>
