

TAMPA ELECTRIC COMPANY

OVERHEAD TO UNDERGROUND SERVICE AGREEMENT

Name(s) of Customer(s): _____

Service Address: _____

Customer understands and agrees that Company, at its expense, will be converting the distribution lines from overhead to underground and, as a result, Customer will be converted from overhead service to underground service.

Company will remove existing overhead lines and equipment that should be removed and may leave other conduit in place, which will all be done by Company in its sole and absolute discretion. Customer’s rooftop riser, at the location of prior overhead connection, may be left in place. At Customer’s request, Company will confirm if the riser or other overhead equipment left in place can be removed by Customer, if desired. If Customer does not wish to remove the rooftop riser, Company recommends Customer cap the riser.

Customer agrees to allow and grants Company the rights to install equipment necessary for the conversion, which may include underground electric service lines, meters, adaptors, conduits, and other equipment of Company, and rights of ingress and egress for the Company and its contractors necessary for the construction, operation, and maintenance of such facilities and removal of overhead facilities.

Nothing in this Agreement shall be construed or have the effect of vesting in the Customer any right, title, or interest in or to any equipment of Company, all of which shall be and remain the property of Tampa Electric Company.

This Agreement, together with only any easements and standard service agreements between the parties, is the entire agreement between Customer and Company regarding the conversion from overhead to underground service, and Customer has not relied on any other representations regarding the conversion.

This Agreement and Customer’s service is and will remain subject to Company’s retail tariff. This Agreement shall be binding upon the successors or legal assigns of either of the parties hereto.
