Capability Statement

Rimpsey Enterprises (RE) is a SDVOSB and MDOT certified service-based firm. Barry Rimpsey founded RE after a distinguished 20-year US Army career and employs the same rigor of discipline and attention to detail expected of military logistics in Division and Army-level organizations.

RE combines time-tested IT asset management experience with proactive approaches to accomplishing goals. Headquartered in Maryland, RE offers comprehensive support to federal and state government agencies, prime contractors, local municipalities, and educational institutions.

Barry Rimpsey posses an active individual TS clearance with SCI, SAP, and CI Poly.

Core Competencies

IT Asset Management
Combining asset management, principles, processes, & software to ensure true accountability of assets while facilitating timely deployment, maintenance, upgrade, retirement, & disposal.

Logistics Analysis
Incorporating data mining & root cause analysis to identify opportunities for improvements while maximizing supply chain efficiency & minimizing costs.

Inventory Planning
We believe trustworthy inventory & proven methodology is fundamental to a successful asset management strategy.

Administrative Management Support
Providing day-to-day office administration services including project & program management.

Government Facility Operations Support
Enabling our clients to continue normal operations while lowering risks of inadvertent disclosure, exposure of sensitive information & equipment, as well as introducing devices used by hostile or friendly intelligence services for the purpose of clandestine surveillance.

Construction Management - Classified & Unclassified
Offering handyman services, construction & program management with techniques for overseeing plans, designs, & construction phases from beginning to end.

DELIVERING MISSION CRITICAL SOLUTIONS

Department of the Navy   **POC** - Amanda Marcella
Time and Material Contract
06/17/2021 - 09/29/2021

Provided the Naval Surface Warfare Center, Dahlgren Division (NSWCDD) Dam Neck Activity (DNA) **hardware and technical services** for the flooring installation located in Building TH16/19.

Removed and replaced the 25 existing raised floor tiles that were either damaged or unusable for the new configuration of the room. With the tiles needing to be of the same type and compatible with the current support system, RE removed and replaced ceiling tiles and grid to accommodate the sealing of the wall opening.

Defense Information Systems Agency   **POC** - Valentenia Smith
Premier Management Corporation
Fixed Contract
04/10/2018 - 11/04/2018

Provided both **Asset Management & Logistics Support Services** to the Multi-National Information Sharing Program Management office through logistics planning.

Provided the Defense Information Systems Agency (DISA) with metrics, guidance, and strategies tailored to account for hardware assets in the Defense Property Account-ability System (DPAS).

Defense Information Systems Agency   **POC** - David Gray
Maximus / Attain   Tau - Six
Fixed Contract
11/07/2018 - present

Currently provide **expert property custodian services** within the Defense Property Accountability System (DPAS). Conduct annual inventories and perform asset life cycle management duties. Established on/off boarding procedures for the CESO program and ensure all assigned Government Furnished Equipment (GFE) is properly accounted for.
