

# PARALYSED

## INTRO

Trying to be better  
Mirrors show what I've become  
Imperfection and the truth  
I know I can't out run  
I'm paralysed.....I'm

## VERSE 1

Paralysed by unknown fear  
It lays my soul to waste  
Conjured up past histories  
That tie me to this space

## PRE CHORUS

Waiting, wanting, needing more, more than I can give  
Waiting, wanting, needing more, in a life that won't forgive.

## VERSE 2

Paralysed deep within  
This fortress I have made  
Nerves once steel now stretched so tight  
My light begins to fade

## CHORUS

Trapped within invisible walls, no one else can see  
Chains that bind, to hold me fast, to a world I can't break free

## VERSE 3

Paralysed in empty rooms  
Rooms without a key  
The truth is that the truth we know  
Will never set me free

# PARALYSED

## PRE CHORUS

Waiting, wanting, needing more, more than I can give  
Waiting, wanting, needing more, in a life that won't forgive.

## CHORUS

I'm trapped within invisible walls no one else can see  
Chains that bind, to hold me fast, to a world I can't break free  
Blinded by the darkest night, the shadows take their form  
I hold on to the hope the night is darkest before the dawn

## BRIDGE

Higher and higher and higher we climb  
Further and further we fall  
Faster and faster and faster we run  
Trying to escape from it all  
Higher and higher and higher we climb  
Further and further and further we fall  
Faster and faster and faster we run  
To that cage with invisible walls.

## CHORUS

Trapped within invisible walls no one else can see  
Chains that bind, to hold me fast, to a world I can't break free  
Blinded by the darkest night, the shadows take their form  
I hold on to the hope the night is darkest before the dawn  
I hold on to the hope the night is darkest before the dawn
