To:

As a Canadian citizen, I am very concerned about our Canadian government negotiating a Global Pandemic Treaty with the World Health Organization (WHO).

This treaty will give the WHO more authority and power over future pandemics. Currently, Canada's leaders are elected by its people which makes Canada a democratic country. The WHO members are NOT democratically elected, and therefore cannot be held accountable. This results in power being removed from citizens of Canada. This is very troubling.

It would be greatly appreciated if this matter was brought up in House of Commons, as it is wrong not to inform Canadians and negotiate this treaty behind closed doors.

I have provided my email below. Please let me know your thoughts on this matter.

Warm Regards,
