

March 9, 2024

To my Member of Parliament:

I am very upset about a Global Pandemic treaty being agreed on by the Government of Canada and the WHO. I believe health care needs to be administered by our elected officials and not under the control of a world health body. Canada needs healthcare accountability and transparency.

Moreover, there have been too many issues of abuse and harm associated with both the WHO and the Director General Mr. Tedros. Notable cases are the 83 WHO Congo perpetrators, the WHO's management of the Covid vaccine program, and Tedros' "acute watery diarrhea" case. Most disturbing are allegations that the WHO is compromised by self serving interests (see Dr. Tess Lawrie).

All over the world, medical and scientific experts and government representatives are voicing their concerns through speech, podcasts and petitions.

Please reply to my email below and let me know what you will do about this matter that is of a high urgency.

Sincerely,

---
