

March 9, 2024

Greetings

It has been brought to my attention that Canada is agreeing to a treaty with the World Health Organization (WHO) where they will determine what becomes of citizens in Canada.

I believe that BC's Bill 36 can be applied to fine our doctors up to \$200,000 and/or jail-them for up to 6 months for merely expressing their concerns over how a WHO mandate may affect our health. Federal laws like Bill C-63 can impose criminal punishment upon those medical experts who know us best may be prosecuted and punished.

We are seeing this now with countless doctors around the world. Doctors with the highest credentials and experiences are being persecuted for expressing their expert medical and scientific opinion.

With all due respect, let's keep transparency and accountability within Canada. Especially, when so many experts from around the world are expressing their concerns over this treaty.

I have provided my email address below. Please let me know what your thoughts are.

Best Regards,
