

March 9, 2024

Dear

It is a great concern to me to find out that Canada is negotiating a Global Pandemic treaty with the World Health Organization (WHO).

As I researched more and more about this treaty, I was deeply troubled because this agreement affects the rights of Canadian citizens and Canada's democracy. This treaty will give the WHO more power and authority over future pandemics without any accountability. There has been very little of reporting and exposure of such negotiations by the mainstream media. As of today, Canada is only few months away from ratifying this treaty.

One of the Members of Parliament has already expressed their concerns over this treaty. Dr. Leslyn Lewis has gathered over 90,000 signatures opposing the Global Pandemic Treaty between Canada and the WHO. She has expressed her concerns that "Canada must be careful to not sign anything that could give away our sovereignty on health care, even if there is tremendous international pressure to do so for the sake of pandemic preparedness."

I am bringing this to your attention as a very concerned citizen. I urge you to get more informed on this matter and see how this treaty is disastrous for Canada. Please reply to my email below and let me know what your thoughts are.

Sincerely,

---
